

CONTENTS BY KEYWORD

Catalysts	Formation, microstructural characteristics and stability of carbon supported platinum catalysts for low temperature fuel cells E. Antolini	2995
Ceramics	Thermal stability of low-oxygen silicon carbide fibers (Hi-Nicalon) in carbon monoxide T. Shimoo <i>et al.</i> Synthesis and mechanical properties of Ti_3AlC_2 by spark plasma sintering A. Zhou <i>et al.</i>	3089 3111
Coatings	Boron carbide coatings prepared by cathodic arc deposition O. R. Monteiro <i>et al.</i>	3117
Composite materials	Spatial spreading behavior of transmitted light from glass particle-dispersed epoxy matrix composites T. Naganuma <i>et al.</i>	3103
Corrosion and oxidation	Thermal stability of low-oxygen silicon carbide fibers (Hi-Nicalon) in carbon monoxide T. Shimoo <i>et al.</i>	3089
Defects	Detection of martensite transformation in high temperature compressively deformed austenitic stainless steel by magnetic NDE technique K. Mumtaz <i>et al.</i>	3037
Electrochemistry	Formation, microstructural characteristics and stability of carbon supported platinum catalysts for low temperature fuel cells E. Antolini	2995
Electronic materials	Dispersant-assisted hydrothermal synthesis of MnZn ferrites from raw oxides M. Drofenik <i>et al.</i>	3063
Fiber technologies	Thermal stability of low-oxygen silicon carbide fibers (Hi-Nicalon) in carbon monoxide T. Shimoo <i>et al.</i>	3089
Glasses	Spatial spreading behavior of transmitted light from glass particle-dispersed epoxy matrix composites T. Naganuma <i>et al.</i>	3103
Infrared spectroscopy	The structure and selected properties of $Co_{2.5}VMoO_8$ M. Kurzawa <i>et al.</i>	3137
Magnetic materials	Dispersant-assisted hydrothermal synthesis of MnZn ferrites from raw oxides M. Drofenik <i>et al.</i>	3063
Mechanical properties	Synthesis and mechanical properties of Ti_3AlC_2 by spark plasma sintering A. Zhou <i>et al.</i>	3111
Microstructure	The structure and selected properties of $Co_{2.5}VMoO_8$ M. Kurzawa <i>et al.</i>	3137
Nanomaterials	Formation, microstructural characteristics and stability of carbon supported platinum catalysts for low temperature fuel cells E. Antolini	2995
Nondestructive testing	Detection of martensite transformation in high temperature compressively deformed austenitic stainless steel by magnetic NDE technique K. Mumtaz <i>et al.</i>	3037
Optical materials and properties	Spatial spreading behavior of transmitted light from glass particle-dispersed epoxy matrix composites T. Naganuma <i>et al.</i>	3103
Phase transformations	Detection of martensite transformation in high temperature compressively deformed austenitic stainless steel by magnetic NDE technique K. Mumtaz <i>et al.</i>	3037
Plasma deposition	Boron carbide coatings prepared by cathodic arc deposition O. R. Monteiro <i>et al.</i>	3117
Sintering	Synthesis and mechanical properties of Ti_3AlC_2 by spark plasma sintering A. Zhou <i>et al.</i>	3111
Thermal properties	The structure and selected properties of $Co_{2.5}VMoO_8$ M. Kurzawa <i>et al.</i>	3137
Thin and thick film coatings	Boron carbide coatings prepared by cathodic arc deposition O. R. Monteiro <i>et al.</i>	3117
