

CONTENTS BY KEYWORD

Adsorption	Characterization and adsorption properties of powders prepared from cactus pulp G. Corro-Hernández <i>et al.</i>	1339
Anisotropy	Magnetic alignment of particles in composite films E. Breval <i>et al.</i>	1347
Biomaterials	Characterization and adsorption properties of powders prepared from cactus pulp G. Corro-Hernández <i>et al.</i>	1339
Brazing	A study of Sn-Bi-Ag-(In) lead-free solders R.-K. Shiue <i>et al.</i>	1269
Ceramics	Coolant pH control for optimum ceramic grinding Part II <i>Influence of the rebinder effect on the surface grinding of aluminum oxide</i> D. W. Alley <i>et al.</i>	1353
	Microstructure and fracture toughness of liquid-phase-sintered β -SiC containing β -SiC whiskers as seeds S.-H. Kim <i>et al.</i>	1117
	Ultrasonic determination of the elastic and nonlinear acoustic properties of transition-metal carbide ceramics: TiC and TaC S. P. Dodd <i>et al.</i>	1107
Characterization methods	Characterization and adsorption properties of powders prepared from cactus pulp G. Corro-Hernández <i>et al.</i>	1339
Defects	Interaction between a dislocation and an impurity in KCl: Mg ²⁺ single crystals Y. Kohzuki <i>et al.</i>	1301
Deposition techniques	Magneto-optical properties of obliquely evaporated Ni films T. Otit	1315
Elastic properties	Ultrasonic determination of the elastic and nonlinear acoustic properties of transition-metal carbide ceramics: TiC and TaC S. P. Dodd <i>et al.</i>	1107
Fatigue	Fatigue behaviour of beta Ti-22V-4Al alloy subjected to surface-microstructural modification K. Tokaji <i>et al.</i>	1153
Ferroelectrics	Electrical properties of ferroelectric SBT thin films prepared using photosensitive sol-gel solution T.-H. Park <i>et al.</i>	1295
Heat treatment	A study of Sn-Bi-Ag-(In) lead-free solders R.-K. Shiue <i>et al.</i>	1269
Kinetics	A model for austenitisation of hypoeutectoid steels D. Gaude-Fugarolas <i>et al.</i>	1195
Magnetic materials	Magnetic alignment of particles in composite films E. Breval <i>et al.</i>	1347
	Magneto-optical properties of obliquely evaporated Ni films T. Otit	1315
	Nanocrystalline microstructures in Fe _{93-x} Zr ₇ B _x alloys X. Y. Xiong <i>et al.</i>	1161
Metals and Alloys	Nanocrystalline microstructures in Fe _{93-x} Zr ₇ B _x alloys X. Y. Xiong <i>et al.</i>	1161
Mechanical Properties	Microstructure and fracture toughness of liquid-phase-sintered β -SiC containing β -SiC whiskers as seeds S.-H. Kim <i>et al.</i>	1117
Machining	Coolant pH control for optimum ceramic grinding Part II <i>Influence of the rebinder effect on the surface grinding of aluminum oxide</i> D. W. Alley <i>et al.</i>	1353
Microstructure	Fatigue behaviour of beta Ti-22V-4Al alloy subjected to surface-microstructural modification K. Tokaji <i>et al.</i>	1153
	Nanocrystalline microstructures in Fe _{93-x} Zr ₇ B _x alloys X. Y. Xiong <i>et al.</i>	1161
	Magneto-optical properties of obliquely evaporated Ni films T. Otit	1315
	A study of Sn-Bi-Ag-(In) lead-free solders R.-K. Shiue <i>et al.</i>	1269
	A model for austenitisation of hypoeutectoid steels D. Gaude-Fugarolas <i>et al.</i>	1195
	Microstructure and fracture toughness of liquid-phase-sintered β -SiC containing β -SiC whiskers as seeds S.-H. Kim <i>et al.</i>	1117
Modelling	A model for austenitisation of hypoeutectoid steels D. Gaude-Fugarolas <i>et al.</i>	1195
Nonlinear properties	Preparation and optical properties of gold nanoparticles embedded in barium titanate thin films Y. Yang <i>et al.</i>	1243
Optical materials and properties	Preparation and optical properties of gold nanoparticles embedded in barium titanate thin films Y. Yang <i>et al.</i>	1243
Sol-gel preparation	Electrical properties of ferroelectric SBT thin films prepared using photosensitive sol-gel solution T.-H. Park <i>et al.</i>	1295
	Preparation and optical properties of gold nanoparticles embedded in barium titanate thin films Y. Yang <i>et al.</i>	1243

(Continued)

Surfaces	Coolant pH control for optimum ceramic grinding Part II <i>Influence of the rebinder effect on the surface grinding of aluminum oxide</i> D. W. Alley <i>et al.</i>	1353
Thermal properties	Ultrasonic determination of the elastic and nonlinear acoustic properties of transition-metal carbide ceramics: TiC and TaC S. P. Dodd <i>et al.</i>	1107
Thin and thick film coatings	Electrical properties of ferroelectric SBT thin films prepared using photosensitive sol-gel solution T.-H. Park <i>et al.</i>	1295
	Magnetic alignment of particles in composite films E. Breval <i>et al.</i>	1347
