Page 200. The artwork for Figures 6 and 7 was inadvertently exchanged. The artwork featured in Figure 7 should appear above the caption of Figure 6, and vice-versa.

Page 202. The caption of Figure 10 contains an error in that it makes reference to Figures 8 and 9 instead of Figures 6 and 7. The caption should read as follows: Plot of  $\Delta \log P_{\text{oct-hep}}$  vs pH as derived from Figures 6 and 7.
