

## Additions and Corrections

---

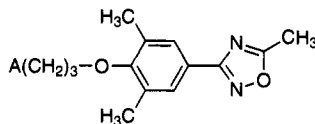

1994, Volume 37

**Thomas R. Bailey,\* Guy D. Diana, John P. Mallamo, Niranjan Vescio, Tandy L. Draper, Philip M. Carabateas, Melody A. Long, Vincent L. Giranda, Frank J. Dutko, and Daniel C. Pevear:** An Evaluation of the Antirhinoviral Activity of Acylfuran Replacements for 3-Methylisoxazoles. Are 2-Acetylfurans Bioisosteres for 3-Methylisoxazoles?.

Page 4179. In Figure 4, the structure for **15a** should have *five* methylenes in the connecting chain, not the six as shown in the paper. The correct structure is shown below:

Page 4181. The structure shown at the top of Table 4 has a nonsensical heterocyclic ring and should correctly appear as shown below:

JM950097D

1995, Volume 38

**Xiaozhang Zheng, Somna R. Salgia, Walter B. Thompson, Elwood O. Dillingham, Stephen E. Bond, Zixia Feng, K. Ram Prasad, and Ram Gollamudi\*:** Design and Synthesis of Piperidine-3-carboxamides as Human Platelet Aggregation Inhibitors.

Page 181. In Table 1, the heading for the second column should be R'', not X. An additional footnote to Table 1 should read as follows: R, R' = Et for all compounds.

Page 182. In Table 2, the heading for the third column should be C<sub>3</sub>-substituent, not R. In Table 3, the fifth column head should be N-substituent, not R.
