Errata

J. Organometal. Chem., Vol. 102, No. 1 (December 2nd, 1975)

Page C5, the footnotes of Table 1 should read:

^a In water at 23.7°C. ^b In 1,2-dichloroethane at 55°C.

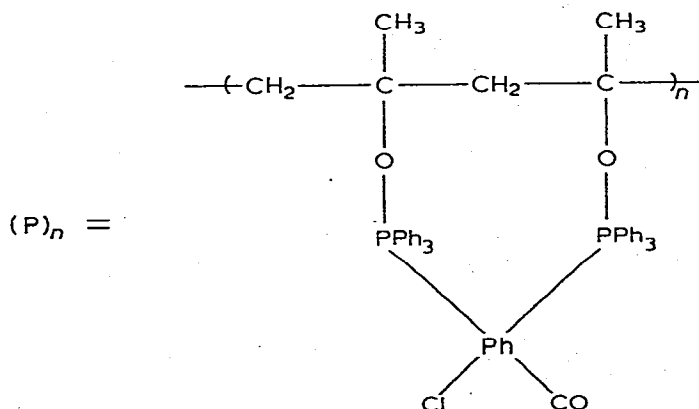

Page C8, line 5 should read:

particulier en faisant dans I les groupes R' = O) permettant l'interprétation

Page C9, the 2nd line of the title should read:

XXI*. NACHWEIS DER STEREOSPEZIFISCHEN RINGPROTONIERUNG

Page C13, the formula should read:

J. Organometal. Chem., Vol. 102, No. 3 (December 16th, 1975)

Page C31, the 4th line of the summary should read:

ligand is σ -bonded and that the Pt—C≡C—C system is essentially linear, while the

Page C32, the 3rd line following Scheme 2 should read:

the 1600-1400 cm⁻¹ region, where $\nu(\text{N}=\text{N})$ usually occurs [2], but exact assign-
