

Corrigendum

The chemistry of cyclopentadienyl-ruthenium and -osmium complexes. II. Novel mononuclear cyclopentadienylruthenium complexes containing aromatic amine ligands. A facile synthetic route; by M.O. Albers, D.J. Robinson and E. Singleton (*J. Organomet. Chem.*, 311 (1986) 207–215)

Page 211, Table 2

The ^1H NMR data for complexes **6** and **7** should be interchanged, as should those for complexes **13** and **14**.

Announcement of Conferences

The following conferences have been announced:

- (a) The VIth International Symposium on Homogenous Catalysis: Vancouver, Canada; 21–26 August 1988. Details from: Prof. B.R. James, Chemistry Department, University of British Columbia, 2036 Main Mall, Vancouver, B.C., Canada V6T 1Y6.
- (b) The XXVIth International Conference in Coordination Chemistry: Porto, Portugal, 29 August–3 September 1988. Details from: Prof. J. de O. Cabral, Departamento de Quimica, Faculdade de Ciencias do Porto, 4000 Porto, Portugal.
- (c) The XIIIth International Conference on Organometallic Chemistry, 4–9 September 1988, Torina, Italy. Details from: Prof. L. Milone, Istituto di Chimica Generale ed Inorganica, Focoltà di Farmacia, Via P. Giuria 9, I-10125, Torino, Italy.
