

Announcement

Fourth European Symposium on Inorganic Chemistry.

This symposium will be held in Freiburg on 12–15 September 1988, immediately following the XIIIth International Conference on Organometallic Chemistry in Torino, Italy. Because 1988 is the centennial of the discovery of nickel carbonyl, the emphasis will be on organometallic chemistry and particular attention will be given to metal carbonyl chemistry.

Details from: Prof. Dr. H. Vahrenkamp,
 ESIC IV, Chemisches Laboratorium,
 Albertstrasse 21,
 D-7800 Freiburg (Federal Republic of Germany)

JOURNAL OF ORGANOMETALLIC CHEMISTRY, VOL. 333, No. 1
