

Erratum

Half-sandwich aminocarbyne complexes of chromium (*Journal of Organometallic Chemistry*, 461 (1993) 99–109)

Alexander C. Filippou, Klaus Wanninger and Christian Mehnert

The above article has had a couple of typographical error printed. The corrections follow below.

- Last entry of Table 1 is missing data (page 103, bottom). Please replace the last entry of Table 1 with the following two new lines:

<i>cis/trans</i> -Cr(CO)(CN ^t Pr)(CN ^t Bu) ₄	(10a/ 10b)	–	2094w, 1959s,br, 1866vs 1920s	–	–	c
---	---------------	---	----------------------------------	---	---	---

- The column header of the second column of Table 2 is not correct (page 104, middle). The new column header is printed below in the revised column headers for Table 2:

Com- plex	N(CHMe ₂) ₂ ; Me ₂ HCNC	Me ₃ CNC	C ₅ Me ₅	Tp'-CMe; NC ₅ H ₄ Me	N(CHMe ₂) ₂ ; Me ₂ HCNC	C ₅ H ₅	Tp'-CH; NC ₅ H ₄ Me	solvent; T(°C)
--------------	--	---------------------	--------------------------------	---	--	-------------------------------	--	-------------------

- The first line of section 5.4 (page 107, top) should read:

Complex **1b** (1.22 g, 3.43 mmol) was dissolved

- Reference 3c should have mentioned the NATO ACI Series C instead of NATO ACS Series C. The revised reference 3 is now printed below:

3 (a) A.C. Filippou, W. Grünleitner and E.O. Fischer, *J. Organomet. Chem.*, 401 (1991) C37; (b) A.C. Filippou, W. Grünleitner, C. Völkl and P. Kiprof, *Angew. Chem.*, 103 (1991) 1188; *Angew. Chem., Int. Ed. Engl.*, 30 (1991) 1167; (c) B. Lungwitz and A.C. Filippou, *Transition Metal Carbyne Complexes*, Kluwer Academic Publishers, NATO ACI Series C, Vol. 392, p. 249.
