# Ternary and Higher Order Iron Phase Diagram Updates

Ternary and quaternary iron phase diagrams have been critically evaluated and published as a series of monographs by the cooperating societies: ASM International, Indian Institute of Metals, and Institute of Materials (UK). Updates on multicomponent iron phase diagrams are published regularly in this journal.

This issue carries the third and final part of the updates on Fe-S-X and Fe-S-X<sub>1</sub>-X<sub>2</sub> systems. It covers the ternary system Cu-Fe-S and four quaternary systems As-Cu-Fe-S, Cu-Fe-Ni-S, Cu-Fe-S-Sb, and Cu-Fe-S-Zn.

This work was supported by the Indian Institute of Metals, Calcutta.
