

ADDITIONS AND CORRECTIONS

2001, Volume 105A

R. A. Klein, and V. Pacheco: Binary Diol-Water Systems Studied by ^{17}O Nuclear Magnetic Resonance Spectroscopy. Interpretation of the Effect of Diol Structure on ^{17}O -Water Chemical Shift. Formation of Networks of Water Molecules Stabilized by Weak C-H \cdots O Interactions

Pages 9299–9301: Equations 2 and 4 should read as follows

$$y = E \cdot [e^{(-x/K)} - 1] + F \cdot x \quad (2)$$

and

$$-B/A = 1 - \frac{1}{\left(1 + R^{DW} \left(\frac{\alpha}{(1 - \alpha)}\right)\right)} \quad (4)$$

This correction of typographical errors in no way affects the results because the correct equations were used in the analysis. In the first part of Table 1, the right-hand column should be labeled B' (B' = B/A), equivalent to the fractional deviation from linearity.
