

Publications by A. C. Albrecht

1. (with W. T. Simpson) The Excited Electronic State of the 2600Å Transition in Benzene, *J. Chem. Phys.* **1953**, *21*, 940.
2. (with W. T. Simpson) Spectroscopic Study of Wurster's Blue and Tetra-methyl-*p*-phenylenediamine with Assignments of Electronic Transitions, *J. Am. Chem. Soc.* **1955**, *77*, 4454–61.
3. (with W. T. Simpson) Low Resolution Electronic Spectrum of Crystalline *para*-Dimethoxybenzene with Application to Benzene, *J. Chem. Phys.* **1955**, *23*, 1480–85.
4. Random Flight Model in the Theory of the Second Virial Coefficient of Polymer Solutions, *J. Chem. Phys.* **1957**, *27*, 1002–13.
5. Intermolecular Correlation in Light Scattering from Dilute Polymer Solutions, *J. Chem. Phys.* **1957**, *27*, 1014–23.
6. Photo-Orientation, *J. Chem. Phys.* **1957**, *27*, 1413–14.
7. (with W. G. Dauben, E. Hoerger, H. Takimoto) Reaction of 2,4-Dibromo-menthone with Zinc and Ethanol. Investigation of the Thujone and Guha and Nath, *J. Org. Chem.* **1958**, *23*, 457–59.
8. (with W. H. Stockmayer) Friction Constants of Chain Molecules with Excluded Volume, *J. Polym. Sci.* **1958**, *32*, 215–19.
9. (with M. E. Green) Photoconductivity in a Rigid Glass, *J. Chem. Phys.* **1959**, *31*, 261–62.
10. "Forbidden" Character in Allowed Electronic Transitions, *J. Chem. Phys.* **1960**, *33*, 156–69.
11. Vibronic Calculations in Benzene, *J. Chem. Phys.* **1960**, *33*, 169–78.
12. Mixed Polarization in Electronic Transition by the Method of Polarized Photo-Oxidation, *J. Am. Chem. Soc.* **1960**, *82*, 3813–16.
13. The In-Plane Frequencies and Normal Coordinates of Benzene, Benzene-D₆, Sym-Benzene-D₃, 1,4-Dideuteriobenzene, and 2,3,5,6-Tetradeutero-benzene, *J. Mol. Spectrosc.* **1960**, *5*, 236–55.
14. The In-Plane Normal Coordinate Analysis of a Model *para*-Disubstituted Benzene Derivative, *J. Mol. Spectrosc.* **1960**, *5*, 256–63.
15. On the Assignment of the Lowest Triplet State in Benzene, *J. Chem. Phys.* **1960**, *33*, 937.
16. On the Theory of Raman Intensities, *J. Chem. Phys.* **1961**, *34*, 1476–84.
17. Polarizations and Assignments of Transitions: The Method of Photo-selection, *J. Mol. Spectrosc.* **1961**, *6*, 84–108.
18. (with P. G. Russell) Vibronic Coupling in the Triplet Manifold, Symposium on Molecular Spectroscopy, Columbus, Ohio (1961).
19. (with E. Dolan) Stimulated Emission in a Photosensitized Rigid-Glass Solution, *J. Chem. Phys.* **1962**, *37*, 1149–50.
20. (E. Dolan) ESR Signals Observed in Ultraviolet Irradiated Glasses of Organic Solutions, *J. Chem. Phys.* **1962**, *37*, 2508–09.
21. (with W. C. Meyer) A Quantitative Study of a One-Electron Photo-Oxidation in a Rigid Medium, *J. Phys. Chem.* **1962**, *66*, 1168–77.
22. (with A. H. Kalantar) Concerning the Primary Absorption Act in a One-Electron Photo-Oxidation in a Rigid Medium, *J. Phys. Chem.* **1962**, *66*, 2279–80.
23. The Temperature Dependence of Electronic Oscillator Strengths in Polyatomic Molecules, Proceedings of the International Symposium on Molecular Structure Spectroscopy, Tokyo, C. A., *61:3708B, B313-1* (1962).
24. Vibronic-Spin-Orbit Perturbations and the Assignment of the Lowest Triplet State of Benzene, *J. Chem. Phys.* **1963**, *38*, 354–65.
25. (with E. Dolan) On the Lifetime of Infrared Stimulated Emission in Photosensitized Rigid Glass Solutions, *J. Chem. Phys.* **1963**, *38*, 567–68.
26. (with J. R. Lombardi, J. W. Raymond) Rotational Relaxation in Rigid Media by Polarized Photoselection, *J. Chem. Phys.* **1964**, *40*, 1148–56.
27. (with P. G. Russell) Electronic States of Benzene by Photoselection. The Polarization of Luminescence in Benzene, Perdeuterobenzene, and Perchlorobenzene, *J. Chem. Phys.* **1964**, *41*, 2536–50.
28. (with A. H. Kalantar) Studies in Vibronic Spectroscopy: The Detailed Polarization of Absorption, Fluorescence, and Phosphorescence in Four Benzene Derivatives, *Ber. Bunsen-Ges. Phys. Chem.* **1964**, *68*, 361.
29. (with A. H. Kalantar) The Theory of Vibronic Interactions in Four Benzene Derivatives, *Ber. Bunsen-Ges. Phys. Chem.* **1964**, *68*, 377–89.
30. (with K. D. Cadogan) Two-Photon Ionizations in Rigid Organic Solutions and the Triplet-State Intermediate, *J. Chem. Phys.* **1965**, *43*, 2550–52.
31. (with W. M. McClain) On the Nature of Stimulated Emission in Rigid Organic Solutions, *J. Chem. Phys.* **1965**, *43*, 465–72.
32. (with G. E. Johnson, W. M. McClain) Electric Stimulation of Recombination Luminescence in a Rigid Organic Solution (a Gudden-Pohl Effect), *J. Chem. Phys.* **1965**, *43*, 2911–12.
33. (with G. E. Johnson) Photoconductivity in Rigid Organic Solutions. I. Phenomenology of the Photocurrents, *J. Chem. Phys.* **1966**, *44*, 3162–78.
34. (with G. E. Johnson) Photoconductivity in Rigid Organic Solutions. II. Initial-Rate Studies of Charge Carrier Production and the Two-Photon Requirement, *J. Chem. Phys.* **1966**, *44*, 3179–96.
35. (with W. M. McClain) Polarization Studies on Recombination Luminescence in a Rigid Organic Solution, *J. Chem. Phys.* **1966**, *44*, 1594–99.
36. (with P. M. Johnson) Carbon Dioxide as an Electron Trap in 3-Methyl-pentane at 77°K, *J. Chem. Phys.* **1966**, *44*, 1845–49.
37. Report on Session B-2: Luminescence of Organic and Amorphous Materials and Long-Lived Luminescence, Budapest, Section B-2 (1966).
38. (with P. M. Johnson, W. M. McClain) On Stimulated Recombination Luminescence in Rigid, Amorphous, Organic Solutions, Proceedings of the International Conference on Luminescence, Budapest, pp 405–411, Section B-2 (1966).

39. (with H. S. Pilloff) Direct Measurement of a Biphotonic Photoionization in Liquid Solution, *Nature* **1966**, 212, 499–500.
40. Long Duration Luminescence Processes, Proceedings of the International Conference on Luminescence, Budapest, pp 412–429, Section B-2 (1966).
41. (with P. M. Johnson) On the Biphotonic Mechanism of Benzyl Radical Formation in Rigid Organic Solutions, The Chemistry of Ionization and Excitation, pp 91–101 (1967).
42. (with P. M. Johnson) Ionization Processes in Condensed Media, *Radiat. Res.* **1967**, 31, 588.
43. (with H. Sauter) Electric-Field Broadening of an Electronic Transition in Azulene, *Chem. Phys. Lett.* **1968**, 2, 8–10.
44. (with D. S. Kliger, J. D. Laposa) Recombination Lifetime of Laser-Stimulated Recombination Luminescence in a Rigid Organic Solution, *J. Chem. Phys.* **1968**, 48, 4326–27.
45. (with K. D. Cadogan) Detailed Studies of a One-Electron, Two-photon Ionization in a Rigid Organic Solution at 77°K, *J. Phys. Chem.* **1968**, 72, 929–44.
46. (with P. M. Johnson) Assignment of Excited Electronic States of the Benzyl Radical by the Method of Three-Step Photoselection, *J. Chem. Phys.* **1968**, 48, 851–65.
47. (with W. C. Meyer) The Photoelectric Properties of Matrix-Isolated Phenanthrene Crystallites in Rigid 3-Methylpentane at 77°K, *Mol. Cryst.* **1968**, 3, 423–60.
48. (with J. Bullot) Electrophotoluminescence in Rigid Organic Solutions, *Acta Phys. Pol.* **1968**, 34, 619–32.
49. (with H. S. Pilloff) Biphotonic Ionization: Flash Photoconductivity Study of TMPD in 3-Methylpentane Solutions, *J. Chem. Phys.* **1968**, 49, 4891–4901.
50. (with J. Tang) Studies in Raman Intensity Theory, *J. Chem. Phys.* **1968**, 49, 1144–54.
51. (with D. S. Kliger) Nanosecond Excited-State Polarized Absorption Spectroscopy of Anthracene in the Visible Region, *J. Chem. Phys.* **1969**, 50, 4109–11.
52. (with K. D. Cadogan) Polarized Triplet–Triplet Absorption Spectra in Three Benzene Derivatives, *J. Phys. Chem.* **1969**, 73, 1868–77.
53. (with K. D. Cadogan) Photoconductivity in Rigid Organic Solutions. III. The Triplet Intermediate and a Kinetic Model Involving Secondary Matrix Trap Photoionization, *J. Chem. Phys.* **1969**, 51, 2710–25.
54. (with J. Bullot) Coupling of Matrix-Trapped Electrons with an External Electric Field: Electrophotoluminescence in a Rigid Organic Solution at 77°K, *J. Chem. Phys.* **1969**, 51, 2220–33.
55. The Method of Photoselection and Some Recent Applications, *Progr. React. Kinet.* **1969**, 5, 301–34.
56. The ‘Solid-State’ Properties of Rigid Organic Solutions, *Acc. Chem. Res.* **1970**, 3, 238–48.
57. (with R. Castonguay) Multiple Long-Lived Emissions from *p*-Dimethoxybenzene in Rigid Media, *Chem. Phys. Lett.* **1970**, 7, 89–93.
58. (with J. Tang) Developments in the Theories of Vibrational Raman Intensities, *Raman Spectrosc.* **1970**, 2, 33–68.
59. (with G. P. Barnett) Derivation of the Dispersion Equation for Molecules, *Raman Spectrosc.* **1970**, 2, 207–18.
60. (with D. S. Kliger) Polarized Spectroscopy of Excited States of Substituted Anthracenes on a Nanosecond Time Scale, *J. Chem. Phys.* **1970**, 53, 4059–65.
61. Electrons in Non-Polar Solids, International Discussion on Progress and Problems in Contemporary Radiation Chemistry, Proceedings of the 10th Czechoslovak Annual Meeting on Radiation Chemistry, June 22–25, 1970, Academia, Prague, Vol. 2, pp 331–364 (1971).
62. (with P. J. Bekowies) Methyl Radical Formation during Photolysis of N,N,N',N'-Tetramethylparaphenylenediamine in 3-Methylpentane at 77°K, *J. Phys. Chem.* **1971**, 75, 431–33.
63. (with F. P. Schwarz) One and Two-Photon Photochemistry in Rigid Solutions of Durene in 3-Methylpentane at 77°K, *Chem. Phys. Lett.* **1971**, 9, 163–65.
64. (with M. C. Hutley) On the Dependence of Vibrational Raman Intensity on the Wavelength of Incident Light, *J. Chem. Phys.* **1971**, 55, 4438–43.
65. (with F. Douglas) Photoelectric Response from Chlorophyll-a Microcrystals in Suspension, *Chem. Phys. Lett.* **1972**, 14, 150–54.
66. (with R. Mathies) Electric Field Perturbation of the $^1A_{1g}$ – $^1B_{2u}$ Transition of Benzene, *Chem. Phys. Lett.* **1972**, 16, 231–34.
67. (with D. M. Friedrich) Three-step Photoselection and the Assignment of the Electronic States of the Benzyl Radical, *J. Chem. Phys.* **1973**, 58, 4766–75.
68. (with R. Devonshire) Electrophotoluminescence in a Rigid 3-Methylpentane Solution of N,N,N',N'-Tetramethyl-*p*-Phenylenediamine at 77°K, Luminescence of Crystals, Molecules and Solutions, Proceedings of the International Conference on Luminescence; F. Williams, Ed.; Plenum Press: London, 1973; pp 304–313; and Bull. Acad. Sci. USSR, Physical Series, 34, 127 (1973).
69. (with F. P. Schwarz) On Infrared Stimulated Duryl Radical Fluorescence in Rigid Solutions of Durene in 3-Methylpentane at 77°K, *J. Phys. Chem.* **1973**, 77, 2411–17.
