

ADDITIONS AND CORRECTIONS

2003, Volume 107A

Chérif F. Matta and Jesús Hernández-Trujillo*: Bonding in Polycyclic Aromatic Hydrocarbons in Terms of the Electron Density and of Electron Delocalization.

Page 7496. In view of the current surge in interest in aromaticity¹ and the attention attracted² by the newly proposed local measure (eq 4, p 7502), we wish to correct a mistake that precludes the reproducibility of Table 1 (p 7503): The value of the constant *c* was mistakenly given the value of 0.1641 in the sixth line after eq 4. The correct value is *c* = 2.4312 for the level of calculation used. With this value, Table 1 is reproducible with no problems. We are very grateful to Professor Patrick Bultinck (Ghent University) for drawing our attention to this error in a personal communication.

Further, the θ values for the three unique rings of dibenz[*a,j*]anthracene have been mistakenly interchanged in Table 1. The correct entries are

molecule	θ		
	I	II	III
dibenz[<i>a,j</i>]anthracene	0.877	0.604	0.809

We apologize to the readers for these mistakes.
