

Michell J. Sienko
1923–1983

Prefatory Remarks

This collection of articles was originally solicited in the summer of 1983 for a special issue of the *Journal of Solid State Chemistry* to celebrate Professor M. J. Sienko's 60th birthday. Because of the recent untimely deaths of both Mike and Carol Sienko this special issue now appears as a commemorative volume. I would like to thank the contributors for their considerable help and support in the preparation of this commemorative issue. Special thanks must go to J. M. Honig, C. N. R. Rao, J. M. Thomas, R. Hoffmann, and B. Widom for their most welcome and valued assistance at all stages of this venture.
