

## ANNOUNCEMENTS

### Euro CVD Six

*Jerusalem, Israel, March 29–April 3, 1987*

The Sixth European Conference on Chemical Vapor Deposition will be held in Jerusalem, Israel, on March 29–April 3, 1987. The conference will deal with all aspects of CVD technology. All contributions will be presented as posters, and some will also be presented orally. For further information please contact:

Euro CVD Six  
P.O. Box 50006  
Tel-Aviv 61500, Israel  
Telephone: (03)654571  
Telex: 341171 KENS IL

### Chapman Conference on Perovskites—A Structure of Great Interest to Geophysics and Materials Science

*Bisbee, Arizona, October 30–November 3, 1987*

This conference will bring together experts from the fields of geophysics and materials science to discuss the complexities of this structure type in terms of its energetics, structure, bonding, phase equilibria, electrical and magnetic properties, elasticity, defects and dislocations, and reactions. An interdisciplinary approach to the physics and chemistry of perovskites will develop new insights and methods for understanding and predicting the properties of the Earth's lower mantle, which probably consists largely of an  $\text{MgSiO}_3$  perovskite phase.

For information on the scientific program please contact:

Alexandra Navrotsky, Convenor  
Department of Geological and Geophysical Sciences  
Guyot Hall  
Princeton University  
Princeton, New Jersey  
Telephone: (609) 452-4674

To be placed on a mailing list to receive the call for papers and other meeting circulars, please write to:
