

## ERRATUM

Volume **65**, Number 2 (1986), in the article, "Structure and Magnetic Properties of Tetragonal Silver (I, III) Oxide, AgO," by K. Yvon, A. Bezinge, P. Tissot, and P. Fischer, pages 225–230:

The cell parameter  $a = 6.833(3)$  stated in the abstract (line 3) and Table I (page 227) is incorrect. The correct cell parameter is  $a = 6.883(3)$ .

In Table I (page 227) the notation of the Ag atom positions

Ag(I) in  $8c$  0, 0, 0, etc.

Ag(III) in  $8d$  0, 0,  $\frac{1}{2}$  etc.

is incorrect. The correct notation is

Ag(III) in  $8c$  0, 0, 0 etc.

Ag(I) in  $8d$  0, 0,  $\frac{1}{2}$  etc.
