

(Contents continued from outside cover)

SHIMPI, R.P. and PATEL, H.G., Free vibrations of plate using two variable refined plate theory	979
DAI, Z.-J. and KUANG, Z.-B., Love waves in double porosity media	1000
Short Communications	
PENG, S.Z. and PAN, J., Flexural wave propagation and power flow in an axisymmetrical circular plate by the acoustical wave propagator technique	1013
CASTRO, E., GARCÍA-HERNANDEZ, M.T. and GALLEGO, A., Damage detection in rods by means of the wavelet analysis of vibrations: Influence of the mode order	1028
LIM, C.W., WU, B.S. and SUN, W.P., Higher accuracy analytical approximations to the Duffing-harmonic oscillator	1039
XIANG, J.W., CHEN, X.F., LI, B., HE, Y.M. and HE, Z.J., Identification of a crack in a beam based on the finite element method of a B-spline wavelet on the interval	1046
CLAEYSSSEN, J.R. and COSTA, S.N.J., Modes for the coupled Timoshenko model with a restrained end	1053
CHEN, Y.Z. and LIN, X.Y., Several numerical solution techniques for nonlinear eardrum-type oscillations	1059
LIN, W., QIAO, N. and YUYING, H., Bifurcations and chaos in a forced cantilever system with impacts	1068
WANG, L. and NI, Q., A note on the stability and chaotic motions of a restrained pipe conveying fluid	1079
ROKNI DAMAVANDI TAHER, H., OMIDI, M., ZADPOOR, A.A. and NIKOYAN, A.A., Free vibration of circular and annular plates with variable thickness and different combinations of boundary conditions	1084
Discussion	
SINGHA, M.K., RAMACHANDRA, L.S. and BANDYOPADHYAY, J.N., Vibration behavior of thermally stressed composite skew plate	1093
Index to Volume	1103
