MEETING

**International Union of Pure and Applied Physics
Conference on Statistical Mechanics
The University of Chicago, Chicago, Illinois, USA, March 29–April 2, 1971**

The conference will be organized around the theme *New Problems, New Techniques, New Concepts*. In order to provide maximum opportunity for discussion of important topics, there will be only one session at a time at which only invited papers will be presented. Contributed papers will be published as lengthy abstracts, distributed at the beginning of the meeting; rooms will be provided for informal presentations of these papers.

All those interested in contributing a paper or attending this conference, or both, are requested to contact

Professor Stuart A. Rice
James Franck Institute
University of Chicago
5640 Ellis Avenue
Chicago, Illinois 60637
USA

Suggestions for the topical matter of the lectures are invited. These should be sent to the above address.

CALENDAR OF MEETINGS

The calendar contains information on forthcoming meetings of interest to our readers. We list, as accurately as possible, the date, the title of the meeting, the sponsoring organization, the location, the organization, individual, or publication

that should be consulted for further details, and any other useful information about the particular meeting. The Journal will be happy to receive information on meetings planned for the future.
