

# Future Contributions to *Journal of Statistical Physics*

Statistical Mechanical Theory of the Effect of Added Nonelectrolytes on the  
Conductances of Electrolytes

*R. F. Snipes*

A Study of Self-Organizing Processes of Nonlinear Stochastic Variables

*K. Komatani and H. Shimizu*

Dynamic Observation Models

*M. Schilder*

Entropy Calculated from the Frequency of States of Individual Particles

*Z. Alexandrowicz*

Lattice Models of Hydrogen-Bonded Solvents. II

*D. B. Abraham and O. J. Heilmann*

An Exactly Solvable Two-Dimensional Biomembrane Model

*F. W. Wiegel*
