The attention of the reader is drawn to the following misprints which appeared in the above reference paper:

Page 113, the second equality in equation (3.6) should be a plus sign, while the second equality in equation (3.7) should be a minus sign.

Page 114, Equation (3.9) should read:

$$+ 2 \sum_{i=0}^2 P \left(\sup_{0 \leq s \leq t} \sup_{|k - \rho \epsilon^{-2}s| < \lambda \epsilon^{-1} \sqrt{s}} \left| \epsilon \sum_{p=\rho \epsilon^{-2}s}^k v_{p-1}^i U_p^i \right| \geq \delta \right) \quad (3.9)$$
