

Erratum: Molecular Dynamics Calculations of the Hard Sphere Equation of State [*J. Stat. Phys.* 35, 321 (1984)], Jerome J. Erpenbeck and William W. Wood

The Padé coefficients in Table III are partially incorrect. In particular, the column labeled "1" should have entries 0.055 567 82 and $-0.569\ 432\ 18$ rather than 0.055 678 2 and $-0.056\ 943\ 218$.
