

Erratum: Field Theory of Critical Behavior in a Driven Diffusive System¹

Kwan-tai Leung² and John L. Cardy²

Received August 11, 1986

It has been pointed out that there is a sign error in (A.3) which leads to the absence of a nontrivial fixed point in the case $r_{\parallel} = 0$, $r_{\perp} > 0$, and that the cancellation mechanism in Appendix III is incomplete. The correct version will appear in a follow-up paper to Ref. 4 (Janssen and Schmittmann, *Z. Phys. B*, to appear). We thank those who brought these errors to our attention. However, we emphasize that our main results, which refer to $r_{\perp} = 0$, $r_{\parallel} > 0$, remain valid.
