

Workshop Announcement

A Workshop on "Phase Transitions: Mathematics, Physics, Biology..." will be held on June 1-5, 1992, at the Center for Theoretical Study, Charles University, Prague, Czechoslovakia. The workshop will be devoted to the theory of phase transitions and its interdisciplinary aspects. More specifically, the idea is to discuss the notion of the Gibbs state and its different applications. While the core will be in mathematical physics, such topics as image processing, communication systems, neural networks, biological systems, etc., will be included. Organizing Committee: R. Kotecky (Program Chairman), I. M. Havel, J. Malypetr, M. Zahradnik, and M. Zeithamlova. Contact addresses: Program: Roman Kotecky, CTS, Charles University, Ovocny trh 3, 116 36 Praha 1, Czechoslovakia; telephone (42 2) 26 30 89; fax (42 2) 26 94 66; email KOTECKY@CSPUNI12.BITNET. Organizing Secretary: Milena Zeithamlova, Agency Action M, Kazasska 14262, 101 00 Praha 10, Czechoslovakia; telephone (42 2) 74 47 94; fax (42 2) 231 67 13.
