In memoriam

Daniel L. Klayman

The untimely death on October 29, 1992 (at the age of 63) of our Editorial Board member Dr. Daniel L. Klayman, Head of the Organic Chemistry Section, Walter Reed Army Institute of Research, Washington, DC, USA is a great loss for *Sulfur Reports* which he helped get started and which he supported throughout its fledgling and later mature existence as an important contributor to the global prosperity and scientific productivity of the sulfur research community.

Dan Klayman will be missed on our Editorial Board and also by the large number of collaborators and colleagues in many countries who admired his scientific achievements and enjoyed and reciprocated his friendship and generosity.

Alexander Senning
Editor
