

## Coming Events

---

### FIRST EUROPEAN SYMPOSIUM ON THERMAL ANALYSIS

*Organised by the Thermal Methods Group of the Society for Analytical Chemistry  
(Analytical Division of the Chemical Society)*

University of Salford, 20th–24th September 1976

#### Subject matter of Conference

It is envisaged that all aspects of thermal analysis will be covered. This includes instrumentation and technique, aspects of physical, inorganic, organic and polymer chemistry, and the application of thermal methods in the applied sciences such as mineralogy, corrosion, pharmaceuticals, ceramics, building materials, glass technology etc.

Deadline data for abstracts: December 31st 1975.

Information: DR. D. DOLLIMORE  
Reader in Physical Chemistry University of Salford  
Salford M5 4WT England
