OZAWA RECEIVES 1981 METTLER AWARD

The 1981 Mettler Award in Thermal Analysis was presented to Dr. Takeo Ozawa by John M. Cannon, Vice President of the Mettler Corporation, at the opening ceremonies of the 11th NATAS Conference in New Orleans, on October 19, 1981. The award consists of a scroll, a gold lapel emblem and a \$1000 honorarium.

Dr. Ozawa is Manager of the Energy Storage Section of the Electrotechnical Laboratory in Ibaraki, Japan and is the 15th recipient of the international award. Awardees are selected from the nominees by the NATAS Awards Committee based on their outstanding work in the field of dynamic thermal analysis.
