**INTERNATIONAL CONFERENCE ON SUPERCONDUCTIVITY
(ICSC)**

Bangalore—India, January 10–14, 1990

Sponsored by Superconductivity Programme Management Board and Department of Science and Technology

The conference will cover various aspects of superconductivity with special emphasis on HTSC and would include:

Invited talks

Status reports

R and D papers

(oral and poster)

New materials: synthesis characterization, properties

Theory

Applications and Technology

Allied topics

For further information please contact:

2ND MICROSYMPOSIUM ON DEGRADATION, STABILIZATION AND COMBUSTION OF POLYMERS

organized by the Polymer Institute, Centre of Chemical Research, Slovak Academy of Sciences, Bratislava, Czechoslovakia

The meeting will be held in the House of scientific workers at Stará Lesná (High Tatras) and will involve the presentation of last results on projects "Light Stabilizer, Antioxidant and Antipyrene" solved within the framework of multilateral cooperation of Academies of Sciences of socialist countries, the theme 6 "Stabilization and Ageing of Polymers". The scientific programme of the microsposium will cover the lecture and poster presentations of fundamental research on chemistry and physical chemistry of

— degradation and oxidation of polymers at low and high temperatures, ignition included

— effects of light stabilizers, antioxidants and flame retardants

— experimental methods of research of oxidation and combustion of polymers included in the Working Plan of multilateral cooperation.

The preliminary term of meeting, 18–22. 6. 1990, will be confirmed or its change announced in Circular of Microsymposium, which will be dispatched in autumn 1989.

Working language of the meeting will be English and Russian.
