**SOIL REHABILITATION IN THE INTERNATIONAL
LIMELIGHT**

KALRSRUHE, FRG December 10-14, 1990

The conference is organized by the Karlsruhe Nuclear Research Centre and the Netherlands Organization for Applied Scientific Research TNO, in co-operation with the Federal Ministry of Research and Technology BMFT, the county of Baden-Württemberg and the Dutch Government

The conference will be of interest in particular to scientific institutes, representatives from governments, industry and organizations which are involved in the field of soil contamination.

Lectures, workshops and poster sessions will throw light upon scientific, legal and political questions about the 'clean-up' process of contaminated soil and the risks involved, while at the same time an overall view will be given of the state-of-the-art and the latest developments. It is intended to cover the following subjects: assessment of pollutants, 'clean-up' programmes and prevention techniques for soil contamination in industry and developing countries, insight into the behaviour of contamination, experience with the reuse of cleaned sites as well as with new technical procedures in the 'clean up' process.

An additional industrial exhibition by interested companies and theme-related excursions will be organized.

The working languages of the conference will be English and German, simultaneous translation facilities being provided.

Further information about the conference can be obtained from:

1991 - (8th) WORLD CONFERENCE ON THERMAL ANALYSIS

and

(15th) - EUROPEAN CONFERENCE ON FLAMMABILITY AND FIRE RETARDANTS

May 20-21, 1991 Baden, Austria

1991 - (13th) INTERNATIONAL CONFERENCE ON SCIENCE AND TECHNOLOGY

November 7-8, 1991 New Delhi, India

Papers dealing with Analytical/Inorganic/Organic Chemistry, Chemical Engineering, Biosciences, Chromatography/Spectroscopy, Environmental Analysis, Metal Separation/Analysis, Polymers, Pyrolysis, Thermal Analysis, Flame Retardants, Soil and Agriculture etc. now being solicited.

Please send your papers to:
