**INTERNATIONAL CONFEDERATION FOR THERMAL
ANALYSIS 10th CONGRESS**

HATFIELD POLYTECHNIC, HATFIELD, ENGLAND, 24-28 August 1992

This is the major world thermal analysis meeting, held only every four years. 10th ICTA provides a unique opportunity for scientists to meet and discuss new developments, make new contacts and renew old acquaintances.

A number of awards will be presented and associated lectures given during the course of the conference.

The congress will comprise Plenary and Invited Lectures, Poster Sessions and Workshops on subjects including the following main areas:

1. Biological and biochemical materials
2. Catalysts
3. Earth sciences, cements, ceramics and glass
4. Fuels
5. Hazard evaluation and safety
6. Inorganic compounds
7. Instrumentation
8. Pharmaceutical and organic compounds
9. Polymeric materials
10. Superconductors and metallurgical systems
11. Theory

An Instrument Exhibition featuring the latest thermal analysis and associated equipment will be held alongside the Congress.

*John Wiley & Sons, Limited, Chichester
Akadémiai Kiadó, Budapest*

Deadline for receipts of abstracts December 1991.

Proceedings of 10th ICTA will be published and available free of charge to delegates after the Congress. A volume of abstracts will be available to delegates on arrival.
