27th INTERNATIONAL CONFERENCE ON VACUUM MICRO-BALANCE TECHNIQUES

The Conference will take place in Lublin, (Poland) July/August 1997. The Conference is open to topics on all aspects of mass and force determination in vacuum or in controlled atmosphere, design of balances and apparatus ancillary equipment and new applications (thermogravimetry, adsorption heterogeneity, susceptibility, surface tension, phase transition of adsorbed liquids, etc.) The Conference language will be English. The Proceedings of the Conference will be published.
