SOLID STATE CHEMISTRY '96

will be held in Bratislava, July 6–12, 1996

THE SCIENTIFIC PROGRAM

The Conference will cover all aspects of modern solid state chemistry including:

- high temperature ceramic superconductors
- layerd compounds, clathrates and intercalates
- non-oxide glasses
- structure and properties of solids
- electron structure and chemical bonding in solids
- surface chemistry of solids
- solid state supraionics
- local structure and bonding in cementitious binding materials
- others
