

Events

16th IUPAC Conference on Chemical Thermodynamic

and

55th Calorimetry Conference and the 10th Symposium on Thermodynamics of Nuclear Materials

will be held August 6–11, 2000 Halifax, Nova Scotia, Canada.

Topics

This conference will cover all areas of experimental and theoretical thermodynamics, including: thermodynamics of materials, biological thermodynamics, new experimental methods, bonding (theory and experiments) and thermodynamics education. Social highlights will include the beautiful Atlantic coast of Canada and a lobster banquet.

More information:

Professor Mary Anne White, Conference Chair
Department of Chemistry
Dalhousie University
Halifax, Nova Scotia B3H 4J3, Canada
Tel. and fax: 902-494-3894
e-mail: Mary.Anne.White@DAL.CA

Up-to-date details concerning the conference can be obtained at the website:
