Mansfield, S.D.; Weineisen, H. Wood fiber quality and kraft pulping efficiencies of trembling Aspen (*Populus tremuloides* Michx) clones. J. Wood Chem. and Technol. **2007**, 27, 135–151.

The caption for Figure 1 should read:

Figure 1. Wood density of *Populus tremuloides* clones. Clones from Del Rio, Farrell Creek, and Kobes Creek represent average values of individual trees presented in Ref. [19], which were determined by water displacement, whereas the clones from Fort Nelson were determined by X-Ray densitometry, as per the Methods and Materials.
