ACS Publications
High quality. High impact.

Concise, Asymmetric, Stereocontrolled Total Synthesis of Stephacidins A, B, and Notoamide B [*J. Am. Chem. Soc.* **2007**, *129*, 6336–6342]. Gerald D. Artman, III, Alan W. Grubbs, Robert M. Williams*

It has come to our attention that there are two errors in our Supporting Information for the optical rotations for compounds **11** and **13**. Please note that the Supporting Information file accompanying this manuscript has been updated to reflect the correct optical rotations for compound **11** to be -80 (c 2, CH₂-Cl₂) and that for compound **13** to be $+44$ (c 2, CHCl₃).

We thank Dr. Paul Harris for making us aware of these errors.
