

Li⁺-Catalyzed Radical Polymerization of Simple Terminal Alkenes [*J. Am. Chem. Soc.* **2006**, *128*, 5610–5611]. Kamesh Vyakaranam, Josiah B. Barbour, and Josef Michl*

Errors have been found in the 4-page Supporting Information file (149 KB).

Page S2, first paragraph, line 3: change “monomer” to “carborate anion”.

Page S2, first paragraph, line 6: insert the following sentence after “...specified amount of time.”

When prepared as reported, Li⁺CB₁₁Me₁₁⁻ contains a trace of residual sulfolane solvent, and this is important for its activity.

Page S2, second paragraph, line 1: change “5 mL” to “0.5 mL”.
