

Nucleobase-Directed Amyloid Nanotube Assembly

[*J. Am. Chem. Soc.* **2008**, *130*, 16867–16869].

Peng Liu, Rong Ni, Anil K. Mehta, W. Seth Childers, Ami Lakdawala, Sai Venkatesh Pingali, Pappannan Thiyagarajan, and David G. Lynn*

Page 16869. The distances listed in Figure 6 were diameters, not radii. The corrected figure and caption are given below:

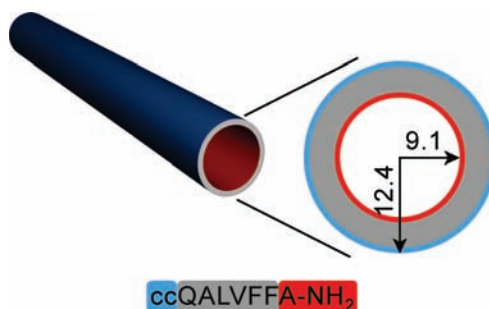

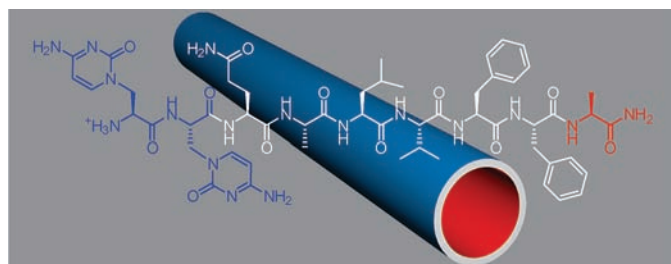

Figure 6. Schematic of the nanotube structure formed by the nucleobase-modified amyloid congener peptide with inner and outer radii (nm). The blue/red surfaces indicate the parallel arrangement of the single-walled peptide β -sheets that result in unique inner and outer surfaces.

The structures in the table of contents graphic were incorrect; the correct figure is given below:
