Acknowledgment. J.T.H. and T.J.M. gratefully acknowledge the support of BP Solar. J.T.H. also thanks the U.S. DOE Office of Science (Grant No. DE-FG02-87ER13808) and NU-NSEC for funding. Additionally, T.J.M. acknowledges that this material is based upon work supported as part of the ANSER Center, an Energy Frontier Research Center funded by the U.S. Department of Energy, Office of Science, Office of Basic Energy Sciences under Award Number DE-SC0001059. C.A.M. acknowledges the DOE Office of Basic Energy Sciences (Award No. DE-SC0000989) for support via the NU Nonequilibrium Energy Research Center. He is also grateful for support from the Army Research Office.
