

## Book Listing of CRC Handbook of Chemistry and Physics, 92nd ed., 2011–2012

**CRC Handbook of Chemistry and Physics, 92nd ed., 2011–2012.**  
 Editor-in-Chief: W. M. Haynes (National Institute of Standards and Technology). CRC Press (an imprint of Taylor & Francis Group): Boca Raton, FL. 2011. 2656 pp. \$149.95. ISBN 978-1-4398-5511-9.

The 92nd edition of this tried and true handbook continues to provide the latest critically evaluated chemical and physical data. Some of the changes featured in this edition include a reorganization of the Analytical Chemistry section as well as many new tables in this and the section on Polymer Properties. Updates were also made to the following tables: Properties of the Elements and Inorganic Compounds; Fluid Properties; Molecular Structure and Spectroscopy; Atomic, Molecular, and Optical Physics; Nuclear and Particle Physics; Properties of Solids; Geophysics, Astronomy, and Acoustics; and Health and Safety Information. Also, data in the table of Physical Constants of Organic Compounds were thoroughly examined, updated, and validated by comparison to the data of the NIST Thermodynamics Research Center. The Handbook is also available in DVD format and online.
