

Book Listing of Progress in Colloid and Polymer Science, Vol. 138: Trends in Colloid and Interface Science XXIV

Progress in Colloid and Polymer Science, Vol. 138: Trends in Colloid and Interface Science XXIV. Edited by Victor Starov (Loughborough University, Leicestershire, U.K.) and Karel Procházka (Charles University in Praha, Czech Republic). Springer: Heidelberg, Dordrecht, London, New York. 2011. x + 200 pp. \$259.00. ISBN 978-3-642-19037-7.

The book is a collection of papers presented at the 24th Meeting of the European Colloid and Interface Society held in Prague in September, 2010. There are 35 chapters organized under the following headings, which correspond to the different sessions of the meeting: "Self-assembling, Stimuli-responsive and Hierarchically Organized Systems"; "Colloid, Polymer and Polyelectrolyte Solutions; Solutions and Gels"; "Thin Films, Interfaces and Surfaces; Wetting Phenomena"; "Novel Nano-to-Mesostructured Functional Materials"; and "Biologically Important and Bioinspired Systems; Pharmaceutical and Medical Applications". A brief subject index completes the book.
