PAPERS FOR SPRING MEETING

All members who propose to present papers at the Spring Meeting of the Society to be held May 12 to 14 at New Orleans, Louisiana, should forward titles to Dr. George W. Irving, Jr., Chairman, Technical Program Committee, Southern Regional Research Laboratory, 2100 Robert E. Lee Boulevard, New Orleans, Louisiana, not later than APRIL 20 in order that they may be included in the printed program. Please indicate whether projector or other facilities are required.

A. O. C. S. IN THE SERVICE

Ensign John C. Kraning, USNR

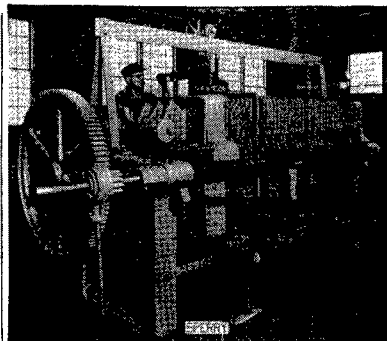

Ensign John C. Kraning, USNR, who has been working in Naval Communications in Washington, D. C., since December 19, expects to be stationed there for several more months. His address is 832 D Street, S. E., Washington, D. C. His work he describes as interesting, "but a long way from chemistry and soap."

After leaving the Indiana Soap Works in Michigan City, Indiana, Ensign Kraning was first sent to New London, Connecticut, and then to Noroton Heights, Connecticut, where he completed the navy's communication school course.

A. O. C. S. SERVICE ADDRESSES

Willard C. Bull, 2nd Lieutenant, C.W.S., Technical Command, Edgewood Arsenal, Maryland.

Col. Harry P. Newton, 3rd C.A. Group A.A., Portsmouth, Virginia.

Consult Sperry

For more than 45 years we've been solving industrial filtration problems and building the necessary equipment to handle them. No matter how tough your problem may be, you'll find it profitable to consult Sperry engineers. They have the answer.

How to Make "KILLERS"
Welcome in the Best of Society!

DEODORANT L-37 MM&R

This MM&R product is a specific for neutralizing the irritating character that is imparted to the nostrils by certain "killers" (toxic agents) commonly used in fly sprays and other insecticides. If you are now using Lethane, Lethane 384, Thanite, Velsicol or any other type of toxic agent, or if the odor of certain basic ingredients need hiding, write for testing sample of Deodorant L-37 MM&R and new low price schedule.

A. O. C. S. REFEREE CHEMISTS FOR 1942-3

The following have certificates reading on cottonseed, oil cake and meal, and fatty oils:

- G. W. Agee, E. R. Barrow, and J. R. Mays, Jr., Barrow-Agee Laboratories, Memphis, Tenn.
- G. H. Kyser, Barrow-Agee Laboratories, Shreveport, La.
- P. D. Cretien, Texas Testing Laboratories, Dallas, Texas.
- R. H. Fash and F. B. Porter, The Fort Worth Laboratories, Fort Worth, Texas.
- N. C. Hamner, Southwestern Laboratories, Dallas, Texas.
- Thos. C. Law and J. D. Evans, Law & Company, Atlanta, Ga.
- P. McG. Shuey, Shuey & Company, Savannah, Ga.
- E. H. Tenent, Woodson-Tenent Laboratories, Memphis, Tenn.

The following have certificates reading on cottonseed, oil cake and meal, and cottonseed oil:

- L. B. Forbes, L. B. Forbes Laboratories, Little Rock, Ark.
- D. C. Picard, The Picard Laboratories, Birmingham, Ala.
- F. R. Robertson, Houston Laboratories, Houston, Texas.
- V. S. Skinner, Shilstone Testing Laboratory, Houston, Texas.
- G. K. Witmer, The Battle Laboratories, Montgomery, Ala.

The following have certificates reading on cottonseed and oil cake and meal:

- B. L. Caldwell, Barrow-Agee Laboratories, Jackson, Miss.
- G. C. Henry, Law & Company, Macon, Ga.
- T. G. Weiss, Barrow-Agee Laboratories, Leland, Miss.

The following has certificate reading on cottonseed oil:

- S. Lomanitz, General Laboratory, Oklahoma City, Okla.

The following have certificates reading on oil cake and meal and fatty oils:

- W. F. Beedle, G. W. Gooch Laboratories, Los Angeles, Calif.
- P. W. Tompkins, Curtis & Tompkins, San Francisco, Calif.
- H. P. Trevithick, Bureau of Chemistry, New York Produce Exchange, New York City.

The following have certificates reading on oil cake and meal and cottonseed oil:

- H. M. Bulbrook, Industrial Laboratories, Fort Worth, Texas.
- Edw. G. Williams, Edw. G. Williams Laboratory, New Orleans, La.

Oil soakage in press cake!

**must be saved
this year for
Victory!**

UNNECESSARY press cake losses hurt the war effort and help create shortages. Therefore, the use of the highest efficient purifier has new significance and a war responsibility.

Check your press cakes to be sure you're getting the greatest possible recovery, so you can produce more of the things your country so sorely needs.

The most efficient and most economical way of getting greater yield from oil stocks is to use Special Filtról—requirements are less and there is smaller oil loss in the press cake.

Try Special Filtról and watch your production go up—and your operating costs go down.
