News of People and Products

THE GLYCO PRODUCTS COMPANY, INC., Brooklyn, N. Y., announces the opening of a factory and offices in Mexico City. The Mexican company will be known as Productos Quimicos Glyco, S. A., and managed by Dr. E. Rios and Dr. A. Graf, Mexican engineers.

GEORGE H. KYSER has been appointed chief chemist at General Mills' soybean processing plant at Belmond, Ia., it is announced by Harry A. Bullis. Mr. Kyser is a graduate of Southwestern university, Memphis, and a member of the American Oil Chemists' Society. From 1928 to 1943 he was employed by the Barrow-Agee Laboratories, Inc., at Memphis, Jackson, Cairo, and Shreveport, in turn. Since 1943 he has been analytical chemist for the United Gas Pipe Line company in Shreveport.

Further Belmond appointments include Bruce P. Neil as production superintendent of the extraction plant and John F. Flynn as traffic manager. Mr. Neil was with the Glidden company for seven years, then became field engineer for Skelly Oil.

HENRY L. THOMAS, for 15 years chemist for the Forrest City Cotton Oil Mill, Forrest City, Ark. (subsidiary of Armour and Company), has been since June 1 with the Cotton and Fiber branch, Research and Testing division, Office of Distribution, at Stoneville, Miss., as cottonseed technologist.

GEORGE P. DAVIDSON is now a lieutenant with the 150th Bn., Company C, 91st I.R.T.R., S. Camp Hood, Texas.

M. W. Dippold, formerly with Spencer Kellogg & Sons, Inc., at Decatur, Ill., is now S 1/c in Company 1248 at Great Lakes, Ill.

A. L. ANDRY, for 32 years superintendent of the Trinity Oil company's refinery and soap plant, resigned on August 21, 1944, because of ill health. His present address is 919 Mt. Auburn, Dallas 10, Tex. He hopes to return to his profession in a few months.

WALES NEWBY, formerly with the Cudahy Packing company, Memphis, is now with the Cotton Products company, Opelousas, La.

An innovation which will mark the opening of the 1944 exposition of the NATIONAL CHEMICAL SHOW and conference is a joint luncheon with members of the Chicago Association of Commerce and the Chicago section of the American Chemical Society at the Palmer house on November 15.

LAW & COMPANY, consulting and analytical chemists, have moved their Wilmington, Calif., laboratory to 16 Princess street. Other laboratories are located in Atlanta and Macon, Ga. Manager is Thomas B. Caldwell, who opened the branch in 1912.

Part of FOOTE production of Litholite A may now be diverted to civilian use. This grease operates equally well at 90° F. and 400° F.

EMERY INDUSTRIES, INC. have opened a branch sales office and warehouse in Philadelphia.
