

Announce Speakers for Short Course, Also 50 Applications

SPEAKERS who have already accepted invitations to lecture before the second annual short course of the American Oil Chemists' Society and the University of Illinois, joint sponsors, on August 15-19, 1949, at Urbana, are announced as follows by

W. H. Goss

J. P. Harris, chairman of the Education Committee: Warren H. Goss, Prof. Tom Hamilton, Frank Vibrans, Prof. A. B. Paul, Prof. B. H. Daubert, and Dean R. B. Browne. Applications are coming in steadily for enrollment in the course, with 50 at hand. The total will be limited to 150. Fee is \$20, payable to the Society office at 35 E. Wacker drive, Chicago, Ill. Theme of the 1949 course will be "The Production and Processing of Edible Fats."

Reservations should be made direct with the hotels: Inman hotel, Champaign (50 rooms); or the Urbana-Lincoln, Urbana (50 rooms); or the Men's Residence halls at the University of Illinois, in care of R. K. Newton, 205 Arcade building, Champaign.

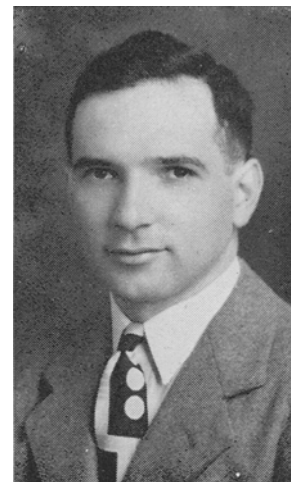

Dr. Goss is associate director, research and product development, Pillsbury Mills, inc., Minneapolis. He was one of the 1948 short course lecturers and has served on several AOCS committees, such as membership in 1943-44, public relations 1944-47, and review of scientific literature, 1945 to date. He was formerly with the Northern Regional Research Laboratory, Peoria, Ill. He will speak on "Solvent Refining and Fractionation" on the refining symposium Tuesday afternoon, 1:30 to 4 p. m.

Broadwalk at University

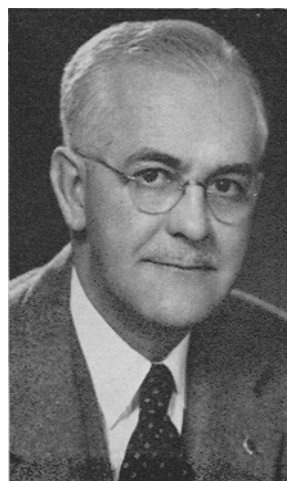

T. S. Hamilton

A. B. Paul

Both Dr. Vibrans and Dr. Daubert are members of the Society, the former being chief research chemist for the American Meat Institute, Chicago, and the latter, research professor of chemistry and research administrator of chemistry, University of Pittsburgh. Topic assigned to Dr. Vibrans is rendering, Tuesday, 11-12 a.m.

R. B. Browne

The other three are all University of Illinois men. Dean Browne, head of both the summer session and the University Extension division, will give the address of welcome at 8:45 a. m. Monday, August 15. Hamilton, professor of animal nutrition, will be leader of the Tuesday evening symposium on nutritive values. Dr. Paul is a 1940 graduate of the University of Illinois and took his doctorate in 1947. He has specialized in agricultural marketing and economic statistics for his work in food industries research. His topic will be "Economics of the Industry," Monday 9-10 a.m.

Hamlin Returns

Eugene L. Hamlin of Nicholville, N. Y., has recently returned from India after two years in that country, where he erected and placed in operation a \$2,000,000,000 vegetable oil refinery and processing plant for the Hindustan Vegetable Products Company Ltd., Calcutta. This was the second such plant he has constructed in India; processing equipment was supplied by Wurster and Sanger inc., Chicago. The first plant was put up in 1941 near Delhi, with equipment from the William Garrigue Company, Chicago. During his stay in India Mr. Hamlin was associated with Dean C. Ingraham in a chemical engineering consulting service.
