

## Registrations Flowing in for 1952 Short Course

REGISTRATIONS for the 1952 short course on soaps and synthetic detergents, to be held at Rutgers University July 6-11, are picking up momentum, and the enrolment of 200 will doubtless be reached some time in June, according to J. P. Harris, chairman of the Education Committee, and Foster Dee Snell, chairman of the short course itself. The complete program was published in the May issue of the Journal, and there are only two changes: a) the plant trips will start at 1:30 p. m. instead of 2 o'clock; and b) R. C. Stillman, not C. P. Long, will give the paper Friday morning, July 11, on "Analysis of Soaps."

Students are expected to live on campus, and assignment of rooms is made by the Society office upon acceptance. The fee of \$90 (\$50 for room and board, \$40 for registration) should be sent to the American Oil Chemists' Society, 35 E. Wacker drive, Chicago 1, Ill. Demarest hall will be used for housing. Meals will be served in the Commons across the street, and lectures will be given in the Engineering auditorium one block away.

University officials cooperating with the Society are M. A. Chaffee, director of the University Extension Division, and P. A. van der Meulen, head of the chemical division.

A registration and mixer at 8 p. m. Sunday, July 6, will start the week, and all students are asked to report by Sunday, ready for the opening lecture at 8:30 a. m. Monday. Each afternoon except Wednesday will be given over to plant trips to the following: Colgate-Palmolive-Peet Company, Jersey City, N. J.; Lever Brothers Company, Edgewater, N. J.; J. Howard Smith, Port Newark, N. J.; and Woburn Chemical Corporation, Kearny, N. J.

General subjects for the five mornings are Soap Raw Materials, Soap Processing, Soap Properties, and Evaluation Methods, with these respective chairmen: Arthur L. Fox, Colgate-Palmolive-Peet; J. L. Hale, Swift and Company, Newark, N. J.; A. S. Richardson, Procter and Gamble, Cincinnati, O.; and Francis Scofield, National Paint, Varnish, and Lacquer Association, Washington, D. C.

Morning speakers are A. J. Stirton, E. M. James, V. J. Muckerheide, N. A. Ruston, John W. McCutcheon, Martin D. Reinish, W. A. Peterson, John W. Bodman, M. G. Kramer, A. E. King, E. H. Balkema, E. L. Boley, H. E. Bramston-Cook, Lawrence H. Flett, R. C. Stillman, John A. Nevinson, J. C. Harris, and Edmund Ritchie. Evening speakers are F. J. Schlink, W. A. McConlogue, Dr. Snell, and Roy Peet.

Names of students who have been accepted since the May issue went to press are as follows:

Max Carey Jr., Magnus Chemical Company, Garwood, N. J.  
W. T. Meinert, Emery Industries Inc., Cincinnati, O.  
N. A. Poirier, Johnson and Johnson, New Brunswick, N. J.  
E. B. Moore, Lever Brothers Company, Cambridge, Mass.  
R. H. Rogers Jr., Swift and Company, Chicago, Ill.  
S. B. Smith, Westvaco Chemical Division, New York City

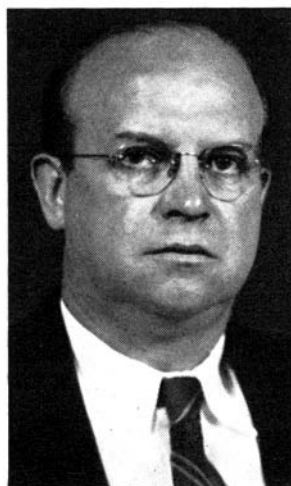

## ☆ SPEAKERS ☆

F. J. Schlink

M. G. Kramer

A. J. Stirton

E. L. Boley

L. F. McKenney, Lever Brothers Company, Cambridge, Mass.  
Edward Bluemel, Lever Brothers Company, Cambridge, Mass.  
H. A. Molteni, E. F. Drew and Company, Boonton, N. J.  
J. D. Conway, certified chemist, Cleveland, O.  
George E. Bailie, Wurster and Sanger, Chicago, Ill.  
S. G. Sourelis, Wurster and Sanger, Chicago, Ill.  
N. T. Joyner, Girdler Corporation, Louisville, Ky.  
Charles J. Lohman, Andrew Jergens Company, Cincinnati, O.  
C. G. Kuykendall, Cudahy Packing Company, Whiting, Ind.  
Leo Lichtenberg, Chicago Sanitary Products Company, Chicago, Ill.  
Lee J. Strobl, Los Angeles Soap Company, Los Angeles, Calif.  
J. C. Cox, Los Angeles Soap Company, Los Angeles, Calif.  
John V. Eichorn, Acme Soap Company, Cambridge, Mass.  
H. B. Lerner, M. W. Kellogg Company, New York City  
Larry Lamery, Stanley Home Products Company, Easthampton, Mass.  
Edward J. Loew, Blaw-Knox Construction Company, Chicago and Pittsburgh  
J. P. Hughes, Mrs. Tucker's Foods, Sherman, Tex.  
R. C. Walker, Mrs. Tucker's Foods, Sherman, Tex.  
M. R. Lauver, Westvaco Division, Carteret, N. J.

This 1952 course will be the fourth sponsored by the Society since 1948, when lectures on vegetable oils were given at the University of Illinois. A second course on edible oils was given at Illinois in 1949, and a third, on drying oils, followed at the University of Minnesota in 1950. Lectures for both the 1949 and 1950 courses are available from the Society offices in Chicago, in bound form, at \$2 and \$3, respectively.
