THE technical program to be given at the 44th annual spring meeting of the American Oil Chemists' Society at New Orleans, on May 4-6, 1953, is developing rapidly, according to T. H. Hopper, program chairman. Present indications are that the program will achieve a balance between applied and background research dealing with processing of oilseeds and processing of oils as well as the chemistry and chemical modification of fats and oils.

Headquarters will be at the Roosevelt hotel. The hotel chairman, A. F. Freeman, Southern Regional Research Laboratory, 2100 Robert E. Lee Blvd., New Orleans, La., reports gratifying early requests for hotel reservations and indicates that accommodations are being assigned as requests are received. Confirmation will be provided by the hotel. The hotels require the name of the person in whose name each room will be registered, the type of room, the number of persons for each room, and the dates of arrival and departure. The Hotel Association of New Orleans has allotted 175 rooms at the Roosevelt and 15 rooms each at the St. Charles, Jung, and Monteleone hotels.

Mrs. C. H. Fisher, chairman, and her Ladies' Program Committee are arranging an outstanding program of diversified entertainment. Arrangements have been made for a tour on May 4 of the antebellum homes in the world-famous garden district of New Orleans. A style show on the U.S.S. Del Mar, the Mississippi Shipping Company's luxury liner, and a tour of the International Trade Mart with its exhibits from foreign lands are features for the second day. In addition, a luncheon at Antoine's in the old-world atmosphere of the French Quarter is scheduled on the last day of the convention.

The traditional past presidents' dinner will be held on Monday, May 4, 1953, at Commander's Palace. Tuesday social events will comprise the annual golf tournament and the dinner dance.

The regular business meeting of the Society for the transaction of business, announcement of election results, and so on will be held during the week. Various committees will also be scheduled for conferences. President E. M. James will preside at a meeting of the Governing Board on Sunday afternoon, and his successor, Procter Thomson, will take the chair at the meeting of the incoming board at the close of the convention.

C. L. HOFFPAUIR

The technical feature of the 1953 spring meeting of the American Society for Testing Materials scheduled for March 4, at the Hotel Statler in Detroit, is a symposium on gloss measurement.

New Members

Active

Eugen Beuttenmueller, director, Industria Oleaginosa Eldorado, Coop. Ltda., Eldorado, Mis., Argentina.
 Herbert F. Davidson, assistant general superintendent of refineries, Archer-Daniels-Midland Company, Minneapolis, Minn.
 Earl Emendorfer, analytical chemist, Colgate-Palmolive-Peet Company, Jersey City, N. J.
 George Francis Marion, chemist, Colgate-Palmolive-Peet Company, Jersey City, N. J.
 William Henry French, oil research chemist, Archer-Daniels-Midland Company, Minneapolis, Minn.
 Frank K. Massey, chemist, Coldstream Products Company, Denison, Tex.
 Felix Harold Lehberg, chief chemist, Lever Brothers Ltd., Toronto, Canada.
 Herman Levin, chemical engineer, Southwest Research Institute, San Antonio, Tex.
 William David Lewis, research associate, Wisconsin Alumni Research Foundation, Madison, Wis.
 Kirtland Edward McCaleb, research organic chemist, General Mills Inc., Minneapolis 13, Minn.
 Theodore M. Miller, chemist and research director, Wallace Menhaden Products Inc., Morehead City, N. C.
 Nicholas Nicolaides, research associate, The University of Chicago, Chicago, Ill.
 Andrew F. Rutkiewicz, chemist, Colgate-Palmolive-Peet Company, Jersey City, N. J.
 Kenneth Aikman Scott, chemical engineer, Colgate-Palmolive-Peet Company, Jersey City, N. J.
 Charles William Seelbach Jr., chemist, Purdue University, Lafayette, Ind.
 John Edward Singley, chemist, Tennessee Corporation Research Laboratories, College Park, Ga.
 Norman O. V. Sonntag, chemist, Colgate-Palmolive-Peet Company, Jersey City, N. J.
 Jack Francis Suriano, chemical engineer, Refinery Pilot Plant, Armour and Company, Chicago, Ill.
 Max Wolf, technologist, Quartermaster Food and Container Institute, Chicago, Ill.
 Leonidas A. Xydes, assistant chemist, American Meat Institute Foundation, Chicago, Ill.

Individual Associate

Herman Adolphe Holz, consulting engineer, New York City
 Robert Alfred Janke, research assistant, Mellon Institute of Industrial Research, Pittsburgh, Pa.
 Robert G. Lowe Jr., sales manager, Wallace Menhaden Products Inc., Morehead City, N. C.
 Gerrit L. Wiggerink, chief chemist, N. V. Koninklijke Stearine Kaarsenfabrieken, Gouda, Holland.

Call to Annual Meeting

Members of the American Oil Chemists' Society are hereby notified of the 44th annual meeting, to be held in New Orleans, La., May 4-6, 1953, at the Roosevelt hotel for the purpose of transacting Society business, confirming the election of officers, confirming the action of the membership on the proposal to establish local sections of the Society, hearing committee reports, and voting on changes in the Methods if proposed by the Uniform Methods Committee.

E. M. JAMES, president
 T. H. HOPPER, secretary

Local Sections Proposed

A statement by the secretary of the American Oil Chemists' Society, T. H. Hopper, along with a proxy ballot were mailed to the active members on February 13, 1953, to carry out the recommendation of a special committee on the establishment of local sections and the action of the Governing Board. It has been proposed (see page 22 of the December, 1952, issue) to add Article XIV to the by-laws to provide for local sections. Results of the vote will be announced at the annual meeting in New Orleans on May 4-6, 1953.

The 22nd annual meeting of the Inter-Society Color Council will be held on March 18, 1953, at the Hotel Statler, New York City.
