## Begin Work on Chicago Meeting in November

**P**RELIMINARY arrangements and appointment of committee chairmen are announced by A. F. Kapecki, general chairman, for the 27th annual fall meeting in Chicago, November 2-4, 1953, at the Sherman hotel, as follows: Sunday evening mixer, Monday smoker and supper, Tuesday banquet; field trips either during the three-day span or on the fourth day; technical program at 9:30 a.m. on Monday and 9 a.m. on Tuesday and Wednesday;

Program—H. T. Spannuth, Wilson and Company  
 Exhibits—R. H. Rogers Jr., Swift and Company  
 Entertainment—J. L. Schille, Best Foods  
 Hotel—C. W. Hoerr, Armour and Company  
 Registration—A. A. Rodeghier, Durkee Famous Foods  
 Inspection Trips—DeWitte Nelson, Swift and Company  
 Publicity—R. J. Vander Wal, Armour and Company  
 Treasurer—N. W. Ziels, Lever Brothers Company, Hammond, Ind.

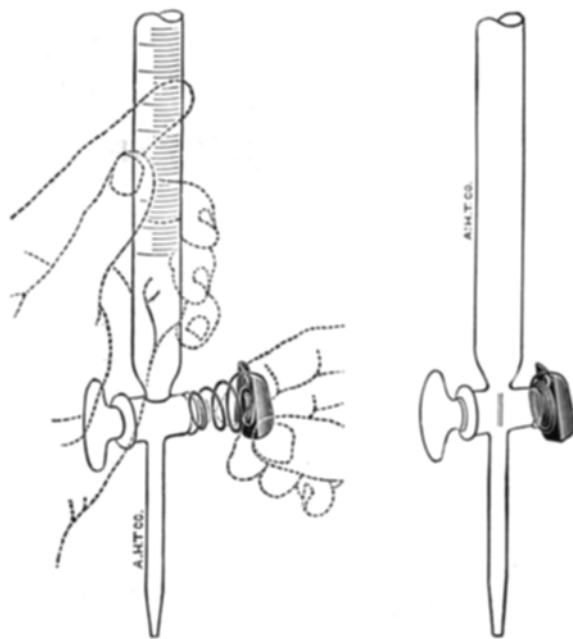

On the Advisory Committee are the following: H. C. Dormitzer and G. A. Crapple, Wilson and Company; V. C. Mehlenbacher, H. S. Mitchell, H. C. Black, all of Swift and Company; A. R. Baldwin, Corn Products Refining Company, Argo, Ill.; J. P. Harris, John P. Harris, Inc.; Victor Conquest and C. E. Morris, Armour and Company; and J. J. Voltertsen, retired from Armour and Company.

General topics under consideration for the program are margarine, industrial and engineering processes, use of fats in animal feeding, drying oils, soaps, and so on. Also being discussed are concurrent sessions, possibly a student session. Members of the program committee are, in addition to Mr. Spannuth, H. C. Black, K. F. Mattil, S. J. Rini, Harold Witcoff of Minneapolis, and E. L. Boley.

There will be space for 66 exhibits at the Sherman hotel, according to Mr. Rogers. The Sherman is setting aside 500 rooms for those who will attend the November meeting.

# A.H.T. CO. SPECIFICATION STOPCOCK TENSION CLIPS

For **INSTANT ATTACHMENT OR REMOVAL**  
 For use on practically any stopcock with plug furnished with groove for rubber washer

3291-B. Method of attachment or removal.

3291-B. In position.

**STOPCOCK TENSION CLIPS, A.H.T. Co. Specification (Patent Applied For).** Of Stainless steel, for pressure-tight seating of practically any type stopcock with groove for rubber washer at small end of plug.

Can be attached instantly by compression of the spring combined with thumb and finger pressure on the narrow flanged sides. Can not work loose, but can be removed instantly. Recommended for glassware which requires manual or mechanical shaking such as Van Slyke Apparatus, Separatory Funnels, etc., and to improve the efficiency of stopcocks on Burettes, Gas Analysis Apparatus, etc. Clip does not interfere with normal manipulation of the stopcock handle.

**3291-B. Stopcock Tension Clips**, as above described. Distal edge of the groove in plug must be at least  $\frac{1}{16}$ -inch beyond stopcock shell for satisfactory use.

Maximum jaw diameter, mm--	11	16	19
Fits stopcock No.-----	1, 1½, 2	3, 4	5, 6
Each-----	1.00	1.10	1.25

**10% discount in carton containing 12**  
**20% discount in lots of 144**
