Fifth Short Course Will Open July 27

JULY 27-31 are the big dates on the calendar of the American Oil Chemists' Society this summer as preparations are completed for the fifth short course, which is to be held at Texas A & M College,

College Station, Tex., with J. D. Lindsay as chairman. The general theme will be the engineering aspects of oil seed processing, broken down into extraction, deodorizing, statistical methods and quality control, instrumentation, heat transfer, corrosion, and filtration.

The complete program was published in the June issue, beginning with the orientation lecture on extraction and oil processing methods by H. D. Fincher, Anderson, Clayton and Company, Houston, Tex., Monday at 9 a. m. and ending with the Friday lunch-

James W. Hayward

eon and panel discussion. All in all, 26 lectures are scheduled by 22 speakers. Monday afternoon there will be inspection of the college facilities, Tuesday a barbecue supper, Wednesday a golf tournament and banquet, and Thursday evening a technical movie.

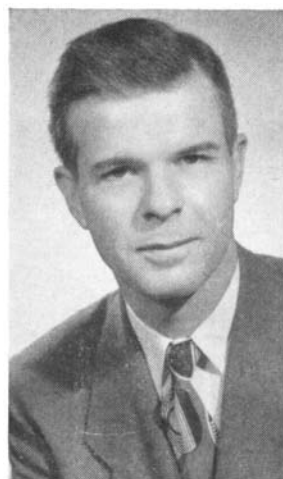

Housing for the students will be in the new, air-conditioned Memorial Student Center, with accommodations for multiple occupancy approximately \$3 a night, payable to the college on arrival. Those who wish to room with certain individuals should so indicate when registering. There will be attractive prizes for the golfers who bring their clubs and compete in the tournament, according to Prof. W. D. Harris.

The registration fee of \$50 is payable in advance to the American Oil Chemists' Society, 35 E. Wacker drive, Chicago 1, Ill. Application forms will be sent on request.

College Station is served by the Southern Pacific railroad, and by Pioneer Air Lines out of Dallas or Houston.

Registrations since the June issue went to press are as follows:

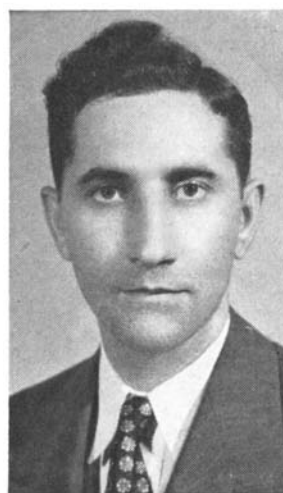

- F. L. Avera, Rosefield Packing Company, Alameda, Calif.
- Thomas Barker, American Mineral Spirits Company, Jackson, Miss.
- Travis L. Budlong, Mrs. Tucker's Products, Jacksonville, Ill.
- H. G. Duff, Canada Packers Ltd., Toronto, Ont.
- Donald A. Erdmann, Pillsbury Mills Inc., Minneapolis, Minn.
- George L. Foehringer, A. E. Staley Manufacturing Company, Decatur, Ill.
- Charles Hay, Western Cottonoil Company, Lubbock, Tex.
- Robert R. Hill, Distillation Products Industries, Rochester, N. Y.

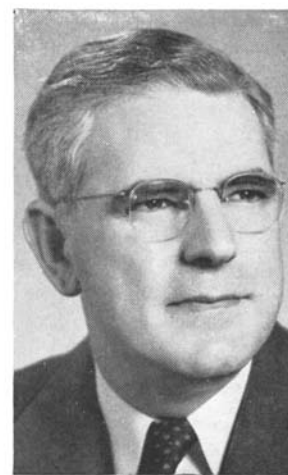

J. W. Dunning

R. P. Hutchins

Keator McCubbin

N. Hunt Moore

-
- F. R. Huddleston, Cudahy Packing Company, Memphis, Tenn.
 - Henry James, Ralston Purina Company, St. Louis, Mo.
 - C. M. McClure, Western Cottonoil Company, Lubbock, Tex.
 - Ray McGee, Glidden Company, Barrington, Ill.
 - Marco L. Paredes, Southern Regional Research Laboratory, New Orleans, La. (Trainee from Honduras)
 - Philip A. Phillips, Lauhoff Grain Company, Danville, Ill.
 - W. F. Phillips, Anderson, Clayton and Company, Houston, Tex.
 - Jim M. Riddlehuber, Western Cottonoil Company, Abilene, Tex.
 - William A. Singleton, Girdler Corporation, Louisville, Ky.
 - Rodney A. Stewart, Wilson and Company, Oklahoma City, Okla.
 - John E. Thompson, Reliable Packing Company, Chicago, Ill.
 - Charles J. West, Corn Products Refining Company, Argo, Ill.
 - Tommy H. Yost, Wilson and Company, Oklahoma City, Okla.
 - Gerry C. Zekert, Planters Nut and Chocolate Company, Suffolk, Va.

Proceedings of the course will be published some time in the fall, first in an issue of the Journal, then in bound reprint form, similar to the proceedings of the preceding short courses: Edible Oils, 1949, \$2; Drying Oils, 1950, \$3; and Soaps and Detergents, 1952, \$3.

T. H. Hopper, head of the analytical, physical-chemical, and physics division of USDA's Southern Regional Research laboratory, New Orleans, La., will be general chairman of the Regional Conclave of the American Chemical Society, at the Jung hotel, New Orleans, December 10-12, 1953. The Conclave is a combination of the Southwest and Southeastern ACS regional meetings and is planned particularly for the chemists and the chemical industry in the area extending from the Carolinas to Texas.

American Oil Chemists' Society Smalley Check Samples

ANNOUNCEMENT is hereby made of the check work for the 1953-54 season. Any member of the Society can be enrolled in the work by sending a request for the samples desired, with remittance (see schedule of charges below) to:

The American Oil Chemists' Society
Attn. Mrs. Lucy R. Hawkins
35 East Wacker Drive
Chicago 1, Illinois

Mrs. Hawkins will in turn notify the subcommittee chairmen, who are as follows:

Subcommittee on Crude Vegetable Oils:

J. P. Hewlett, chairman, The HumKo Company, Memphis, Tenn.

Subcommittee on Oil Seeds:

R. T. Doughtie, chairman, Box 8013, Memphis, Tenn.

Subcommittee on Oil Seed Meal:

R. W. Bates, chairman, Armour and Company, Research Division, Chicago 9, Ill.

Subcommittee on Glycerin:

W. D. Pohle, chairman, Swift and Company, Research Laboratory, Chicago 9, Ill.

Subcommittee on Tallow and Grease:

C. P. Long, chairman, Procter and Gamble Company, Ivorydale, Cincinnati 17, Ohio.

Those collaborators who have taken part in the past will again be individually notified. The charges for participation in this check work will be as follows:

Crude Vegetable Oil.....	6 samples	\$14.00
Soybeans.....	10 samples	9.00
Peanuts.....	7 samples	10.00
Cottonseed.....	10 samples	12.00
Oilseed Meal.....	15 samples	14.00
Glycerin.....	2 samples	2.00
Tallow and Grease.....	5 samples	6.00

This charge applies to all collaborators regardless of affiliation with industrial, state, or federal agencies.

Details relative to the mailing schedules of the samples will be mailed to the collaborators later by the various subcommittee chairmen. The Oil Seed Meal check work will begin August 24, 1953, and the other work will also begin at about that time.

R. W. BATES, chairman.

A.O.C.S. CALENDAR

- 1953—Chicago, Sherman hotel, Nov. 2-4
- 1954—San Antonio, Plaza hotel, April 12-14
Minneapolis, Radisson hotel, Oct. 11-13
- 1955—New Orleans in spring
Philadelphia in fall

WHATMAN

AND

Reeve Angel

Filter Papers For AOCS Analyses

The latest official methods of the society recommend many grades of REEVE ANGEL and WHATMAN Filter Papers.

Among the grades widely used are REEVE ANGEL Numbers 211, 230 and 871 and WHATMAN Numbers 2, 12 and 40.

We have prepared a chart showing the grades of WHATMAN or REEVE ANGEL Filter Papers recommended for every determination where filtration through paper is involved.

This chart binds right into your copy of the Official Methods and is yours without cost or obligation. Write for your chart today and if you need working samples of the various grades please so indicate.
