

MEMORIAL PLAZA—This St. Louis scene will be of interest to members of the American Oil Chemists' Society who plan to attend the meeting May 1-3, 1961.

Names Committee Chairmen

PLANS FOR THE 52nd annual meeting of the American Oil Chemists' Society, to be held at the Sheraton-Jefferson hotel, St. Louis, Mo., May 1-3, 1961, are being made by E.L. Metcalf, R.J. Brown Company, general chairman, and committee chairmen are being named, as follows:

- Honorary Chairman—Lamar Kishlar, retired from Ralston Purina Company
- Program—T.J. Potts, Ralston Purina Company
- Publicity—H.J. Lanson, U.S. Vehicle and Chemical Company
- Golf—R.T. Doughtie Jr., U.S.D.A., Memphis, Tenn.
- Entertainment—J.M. Baggs, R.J. Brown Company
- Printing—John Lowrance, R.J. Brown Company
- Registration—Alexander Kitun, P.D. George Company
- Finance—F.W. Ries, R.J. Brown Company
- Ladies—Mrs. E.L. Metcalf, 3832 Utah place
- Transportation—Robert Morton, Ralston Purina Company

T.J. Potts

Mr. Potts announces that the technical program committee is soliciting papers for the St. Louis meeting. Authors are invited to present work in the general areas of methodology, biochemistry and nutrition, soaps and detergents, composition and processing of fats, oils, and fatty acids. The committee is seeking a variety of technical papers covering original work in the field of fats, oils, and related materials in order to prepare a well-rounded program of technical interest.

For any paper to be included in the program a 100- to 300-word abstract must be received by March 1. These abstracts and any questions

regarding the technical program should be sent to Thomas Potts, Ralston Purina Company, 835 S. 8th street, St. Louis 2, Mo.

Other activities at the annual meeting will include a report by the president of the Society, R.W. Bates, announcement of the results of the mail ballots on election of officers, and committee meetings.

Ask Professors to Recommend

THE GOVERNING BOARD of the American Oil Chemists' Society has again agreed to furnish, without charge for one year, an active junior membership in the Society to graduate students conducting research on lipids. This would include a year's subscription to the Journal of the A.O.C.S.

The purpose is to stimulate research on lipids and to promote continued interest in the subject after the student has completed one year of research.

A letter should be sent by the student's professor to the membership chairman of the Society, A. R. Baldwin, in care of the American Oil Chemists' Society at 35 E. Wacker drive, Chicago 1, Ill., indicating the area of research in which the student is engaged and giving the name and school address of the student. A carbon copy of the letter should be sent to the chairman of the Education Committee, J. C. Cowan, Northern Regional Research Laboratory, U.S.D.A., Peoria 5, Ill.

• New Members

Active

- Geraldine Boyle, sales service, laboratory technician, Durkee Famous Foods, Chicago, Ill.
- James John Engel, coatings resin chemist, Archer-Daniels-Midland, Minneapolis, Minn.
- Helen E. Duell, associate director, Exploratory Research and Development, Smith and Kline and French Laboratories, Philadelphia, Pa.
- Hans Fisher, associate professor, Rutgers University, New Brunswick, N.J.
- Ralph A. Hagberg, sales manager, Chemical Division, Capital City Products Company, Columbus, O.
- Wilbur Gustave Henry, chemical engineer, Procter and Gamble Company, Cincinnati, O.
- Robert B. Hill Jr., analytical chemist and laboratory supervisor, Suero-Chemical Division, Colonial Sugar Company, Gramercy, La.
- Kyu Yawp Lee, production, H. L. Brown and Sons Inc., Chicago, Ill.
- John V. Luck, director of research, Durkee Famous Foods, Chicago, Ill.
- William Vincent Magee, chemist, Best Foods, Division of Corn Products Company, Bayonne, N.J.
- Gino Joseph Marco, project leader, Monsanto Chemical Company, St. Louis, Mo.
- Walter W. Morris Jr., chemist, Division of Nutrition, Food and Drug Administration, Washington, D.C.
- Robert A. Morrissette, chemist, Archer-Daniels-Midland, Minneapolis, Minn.
- Basil George Tarladgis, research chemist, Department of Food Science, Michigan State University, East Lansing, Mich.

Individual Associate

- Jack Clifton McClendon, analytical chemist, Anderson, Clayton and Company, Sherman, Tex.
- Herbert Thomas McCown, chemical engineer, Procter and Gamble Company, Cincinnati, O.
- Gerald Joseph Smith, vice president, Enterprise Animal Oil Company, Philadelphia, Pa.

Choose Lipid Analysis

There may be a 1961 short course after all, according to J. C. Cowan, chairman of the Education Committee of the American Oil Chemists' Society. If so, the subject will be "Newer Lipid Analysis," and the program chairman will be Raymond Reiser of Texas A&M, College Station. Other details will be announced soon. The time will probably be in July or August.
