

Announces Short Course Speakers

NEARLY all of the speakers have been signed up for the 1960 short course on edible fats and oils, to be sponsored by the American Oil Chemists' Society at the University of Illinois, Urbana, July 25-27. As announced by the program chairman, L. R. Dugan Jr., they represent business, industry, and the academic world.

Monday, July 25

Morning

- Fats in Human Nutrition, by F. A. Kummerow, associate professor of foods, University of Illinois, Urbana
Fats in Animal Feeds, by O. H. M. Wilder, chief, division of animal feeds, American Meat Institute Foundation, Chicago
Processing of Edible Fats, Oils, and Shortenings, by S. J. Rini, vice president, research, HumKo Company, Memphis, Tenn.

F. A. Kummerow

S. J. Rini

Afternoon

- Hydrogenation, by R. R. Allen, head, research department, Anderson, Clayton, and Company, Foods Division, Sherman, Tex.
Emulsifiers, by George Y. Brokaw, Distillation Products Industries, Rochester, N. Y.

Evening

- Problems Posed to the Industry by the New Food and Drug Laws, by Gordon Robbins, Law Department, Armour and Company, Chicago, Ill.

Tuesday, July 26

Morning

- Morphology of Fats, Oils and Shortenings, by C. W. Hoerr, senior information scientist, Armour and Company, Chicago, Ill.
Glyceride Structure of Fats and Oils, by R. J. Vander Wal, head, triglycerides section, Armour and Company, Chicago, Ill.
Interesterification (Molecular Rearrangement) of Fats and Oils, by W. Q. Braun, research department, Wilson and Company, Chicago, Ill.

Wednesday, July 27

Morning

- Dietary Fat and Heart Disease, by Dorothy M. Rathmann, Corn Products Company, Argo, Ill.

Health Hazards from Overheating Fats, by E. E. Rice, nutrition research, Swift and Company, Chicago, Ill.
Newer Analytical Methods for the Fats and Oils Industry, by V. C. Mehlenbacher, Swift and Company, Chicago, Ill.

Afternoon

- Economic Factors in World-Wide Fat and Oil Supply, by T. A. Hieronymus, professor of agricultural marketing, University of Illinois, Urbana
Economic Factors in World-Wide Fat and Oil Usage, by Harold V. Knight, Lever Brothers Company, Hammond, Ind.
Problems and Practice of Trade in Fats and Oils, by James F. McHale, Merrill Lynch, Pierce, Fenner, and Smith Inc., Chicago, Ill.

Two speakers are yet to be announced. Tuesday afternoon there will be a visit to the University of Illinois South Farms to see soybean breeding crops and the special oilseed crop program. This will be followed by a fish fry at Allerton Park.

Lectures, housing, and meals will be in Garner hall in the new complex of buildings at the university, with R. T. Milner, head of the food technology department, in charge with the help of R. K. Newton of the Extension Division.

The registration fee will be \$65, payable in advance to the American Oil Chemists' Society, at 35 E. Wacker Drive, Chicago 1, Ill. Housing and meals will be payable on arrival at Garner hall. Married couples may stay in a special section at Garner.

Symposium Planned

Six members of the American Oil Chemists' Society are on the program of the second symposium on "New Coatings and New Coatings Raw Materials," to be held June 6-9, 1960, at the School of Chemical Technology of the North Dakota Agricultural College, Fargo, N. D. They are A. E. Rheineck, professor of coatings technology at the college; S. O. Greenlee of Greenlee Research Company; Frank P. Greenspan, Food Machinery and Chemicals Corporation; D. E. Whyte, S. C. Johnson and Son Inc.; L. O. Cummings, Pacific Vegetable Oil Corporation; and L. E. Gast, Agricultural Research Service, Northern Utilization and Development Division, U.S.D.A.

The enrollment fee is \$25. Housing and meals are available on the campus or in local hotels.

Professor Rheineck feels that the 18 speakers show a representative cross-section of the newer subjects and that some interesting developments will be announced by them.

• 35 Years Ago

"The Composition of Mowrah-Seed Oil," by Augustus H. Gill and Champak C. Shah (Vol. II, No. 2, of the Journal of Oil and Fat Industries, 1925) was a contribution of the Technical Analysis Laboratory of the Massachusetts Institute of Technology.

In the same issue Carl L. Alsberg discussed "Future Trading as Insurance in the Cotton Seed Oil Industry" and predicted a wide future market for fats and oils. He also warned that speculation and the talent for speculation are very different from manufacturing and the talent for manufacturing.

Glenn H. Pickard contributed a paper entitled "Determination of the Iodine Absorption and Foots Formation of Linseed Oil."

• Industry Items

Hayes G. Shimp Inc., Albertson, N. Y., has been appointed sales representative for The Tintometer Ltd. of Salisbury, England, manufacturers of the Lovibond Color Scale and visual color-measuring instruments. H. G. Shimp Jr. will represent the company in development work being conducted with various technical societies.
