# Field Trip Set for May 1

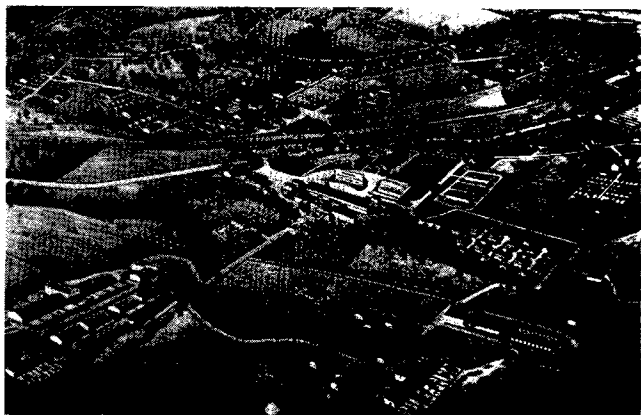

**R**ALSTON PURINA will play host Monday, May 1, to members and guests of the American Oil Chemists' Society attending the 34th annual meeting in St. Louis. A field trip has been set up for Monday afternoon, leaving the Sheraton-Jefferson hotel at 1 p.m. and returning about 9 p.m. A meal will be furnished, also entertainment of the musical country-fair type.

**PURINA'S NEW RESEARCH BUILDING**—This will be one of the interesting sights for those who attend the 52nd annual A.O.C.S. meeting in St. Louis, May 1-3, 1961.

Papers for the technical sessions, May 1-3, are being solicited by T.J. Potts, program chairman, and his committee, and a deadline of March 1 has been set for the 300-word abstract. Authors are invited to present work in the general areas of methodology, biochemistry and nutrition, soaps and detergents, composition and processing of fats, oils, and fatty acids. The program committee is seeking a variety of papers covering original work in fats, oils, and related materials. Questions and correspondence may be directed to Mr. Potts at the Ralston Purina Company, 835 S. 8th street, St. Louis 2, Mo.

Additional features for the spring meeting will include the annual reunion of the past presidents of the Society, the traditional golf tournament with R.T. Doughtie Jr. of Memphis as chairman, the annual dinner dance Tuesday, and the Awards luncheon Wednesday for the Bond Award, Smalley, and golf winners. Ladies' chairman for supplementary activities is Mrs. E.L. Metcalf, 3832 Utah place.

**PURINA RESEARCH FARM**—Located at Gray Summit, Mo., this will be the target for a field trip May 1 by delegates to the St. Louis meeting of the American Oil Chemists' Society.

On the official side there will be an address by the outgoing president, R.W. Bates, announcement of the election of officers for 1961-62, and board and committee meetings.
