Firm City and State Address..... City Zone State

Home Street Address.....

Home City Address..... City Zone State

Send Mail to: Home address Business address

Please fill out the following fully to aid the Membership Committee in passing on qualifications:

Degree[s], institution, and year conferred.....

Other chemical or technical training and experience (give length of time in different positions and describe your present duties).....

We, the undersigned active or emeritus members of the American Oil Chemists' Society, nominate the above applicant for

Active Individual Associate Corporation Associate

Signature of Sponsor Signature of Sponsor

After the applicant has signed the Code of Ethics, and application has been signed above by two sponsoring members, mail the form to:

THE AMERICAN OIL CHEMISTS' SOCIETY 35 East Wacker Drive, Chicago 1, Illinois

All applications are submitted to the Membership Committee for their individual and unanimous endorsement before enrollment in the Society.

CODE OF ETHICS

Article XIII of By-Laws

This Code has been adopted by the American Oil Chemists' Society to define the rules of professional conduct for its members. As a condition of membership it shall be signed by each applicant.

ARTICLE XIII

Since the profession of chemistry has for its prime fundamental object the advancement of science and benefit of mankind, he who chooses this profession should be actuated by ideals in harmony with the attainment of these objects. To these ends, The American Oil Chemists' Society expects each member:

- 1. To familiarize himself with the purpose and objects of the Society as expressed in its constitution; actively to promote those aims; and to strive for self-improvement in the science of the profession to which he has dedicated himself.
2. To conduct himself before the public at all times so as to reflect the dignity of the chemical profession.
3. To use every honorable means to exalt the standards of the profession and extend its sphere of usefulness.
4. To keep inviolate any confidence that may be entrusted to him in his professional duties.
5. To refuse the use of his name to questionable enterprises and not to engage in any occupation that is contrary to law or the public welfare.
6. To guard against insinuations that tend to reflect upon the character or integrity of other chemists.

I hereby subscribe to the above Code of Ethics.

Signature of Applicant

• Names in the News

J.E. Morren (1956) is chemical engineer for Podbielniak Inc., 341 East Ohio street, Chicago. He was formerly with HumKo Products, Champaign, Ill.

G.E. Inglett (1956), formerly with Corn Products Company, Argo, Ill., is now with Griffith Laboratories, 1415-25 W. 37th street, Chicago, Ill.

B.F. Ware, formerly with Cudahy Packing Company at Memphis, Tenn., is with H.L. Hunt Products Company, Nacogdoches, Tex.

G.W. Collins (1958) has been transferred from the HumKo Company, Memphis, Tenn., to HumKo at 501 Allwood road, Clifton, N.J.

R.A. Sunday (1960), formerly at Crestwood, N.Y., has been made plant manager for National Feed Processing Company, Fayetteville, N.C.

R.L. Klein (1960) is sales manager for Durkee Famous Foods, Refinery Division, 2333 Logan blvd., Chicago. He was formerly vice president, Capital City Products Company, Columbus, O.

J.V. Karabinos (1953) has been named director of the organic research department, Chemicals Division, Olin Mathieson Corporation, New Haven, Conn. He was formerly associate director of research for Blockson Chemical Company, a division of Olin Mathieson, Joliet, Ill.

N.D. Embree (1940), technical director for Distillation Products Industries, Rochester, N.Y., since 1957, has been made vice president in charge of technical operations. He was president of the American Oil Chemists' Society in 1959.

R.A. Reck (1951) has been promoted to chief chemist with Armour Industrial Chemical Company, Chicago. He was formerly a group head in fatty acid derivatives.

R.P.T. Young is manager, Organic Chemical Department, Glidden Company, Cleveland, O. He was formerly with Procter and Gamble Company.

Ira P. MacNair, president of MacNair-Dorland Company, New York, received the 1960 achievement award of the Chemical Specialties Manufacturers Association at the 47th annual meeting, Hollywood Beach, Fla., Dec. 5-9.

Richard R. Degraf has been promoted to vice president of American Mineral Spirits Company, Western, with headquarters in Los Angeles.

J. Howard Brown, Robert F. Schultz, and Alvin F. Shepard have been named to new posts in a realignment of the corporate research and development department of Hooker Chemical Corporation, it is announced by Chris A. Stigman, newly elected vice president, research and development. Dr. Brown has been appointed manager—research; Mr. Schultz, manager—process development; Dr. Shepard, senior scientist.

D.W. Crookall (1952) has been appointed sales manager of paper and leather chemicals department for Crest Chemical Corporation, 225 Emmet street, Newark 5, N.J. He has 13 years of experience in fatty oils and chemicals for leather, paper, and other industries.

E. O. Seabold (1941), formerly with Marco Chemical Company, Fort Worth, Tex., has moved to Hardesty Industries Inc., 3512 Cedar street, Philadelphia 34, Pa.

Nicholas S. Yanick (1960) has left National Dairy Products Corporation, Chicago, for the Nalco Chemical Company, 769 Prospect street, Elmhurst, Ill.

Ernest E. Werle (1934), research director, Darling and Company, Chicago, presented a technical paper for the 11th Annual Testing Conference at Grand Rapids, Mich.

Reuben B. Sandin, professor of chemistry at the University of Alberta, Edmonton, was presented with a special

scroll in recognition of his contribution to chemistry through teaching and research at the Fourth Biennial National Symposium of the Organic Chemistry Division of the Chemical Institute of Canada, September 6-7, at Edmonton.

R. C. Speak (1957), formerly with Iowa Soap Company, Burlington, Ia., is now with the United States Borax Research Corporation, 412 Crescent way, Anaheim, Calif.

• 35 Years Ago

The first editorial in the Journal of Oil and Fat Industries as it became a monthly with the January 1926 issue, was concerned with "Our Hammer." H.S. Bailey told how the hammer in the oil technologist's tool kit was a publication devoted to his profession, commenting that "a monthly is better than a quarterly because it not only gives one the work of his confrère more promptly and more often but tends to hold together more closely all those who are laboring on the same structure."

Three committee reports were included in the January issue of the Journal of Oil and Fat Industries: moisture, by P.S. Tilson; seed, by John Malowan; and planning, by David Wesson.

P.M. Travis contributed a paper entitled "Theory of Emulsions and Emulsification" in the January issue of the Journal of Oil and Fat Industries.

Lists Patent Data

In Acrylo-News (Vol. 5, No. 5) the American Cyanamid Company, 30 Rockefeller plaza, New York 20, N.Y., lists new patents in the following fields: acrylamide, adhesives, analytical, chemical intermediates, miscellaneous, physical studies, plastics, polymers, rubber, surface coatings, and textiles.

TEST FAT & OIL CONTENT

in
minutes...
not
hours!

- Saves 4 hours on a single test
- A profitable buying aid to the soybean crusher
- Allows closer quality control of meat and food products
- Increases product uniformity

Performance—Proven by big and small producers!
