### OPENING FOR GENERAL SUPERINTENDENT

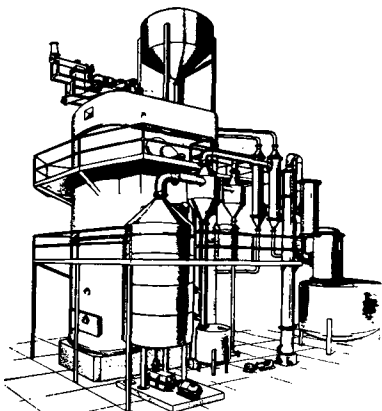

We have an excellent opening for a general superintendent experienced in Expeller processing, oil refining, and complete upgrading to margarine. Send qualification details to Box 344, American Oil Chemists' Society, 35 E. Wacker Drive, Chicago 1, Ill.

### WANTED: CHEMICAL ENGINEER

Between the ages of 35-45 with a minimum of 10 years experience in the various phases of processing edible fats and oils, to assume responsibility in plant design, development and production. Must be an aggressive individual, capable of executing orders with the necessary "follow-thru." Will be working closely with the General Manager. Write to Box 345, American Oil Chemists' Society, 35 E. Wacker drive, Chicago 1, Ill.

### SOLVENT EXTRACTION SYSTEMS

The country's leading processors of oil seeds have specified French Solvent Extraction Equipment again and again because of its versatility—ease of operation—economy—efficiency—safety—and finer and more profitable end products—all at no extra cost.

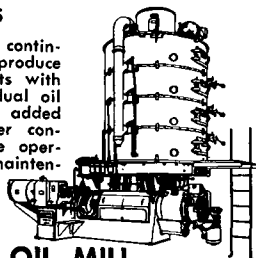

# FRENCH

SPECIALISTS IN OIL MILLING EQUIPMENT SINCE 1900

### SCREW PRESSES

High capacity French continuous screw presses produce highest quality products with exceptionally low residual oil in meal . . . plus the added benefits of low power consumption and full-time operation with minimum maintenance.

- French Rolls
- Box Presses
- Formers
- Valves
- Pumps
- Accumulators

**THE FRENCH OIL MILL MACHINERY CO.**  
PIQUA, OHIO U.S.A.

Cylindroid, a low-cost, ground-level, high-capacity tank, is the product of Graver Tank and Manufacturing Company, Division-Union Tank Car Company, 4809 Tod avenue, East Chicago, Ind.

A compact Weigh-Feeder for small-capacity injection-molding machines is designed by Exact Weight Scale Company, Columbus, O.

Central Scientific Company, 1700 Irving Park road, Chicago, Ill., describes the Cenco Hyvac S14, high-speed, single-stage vacuum pump, in Booklet 322.

Butenediol, a new chemical, is available from Antara Chemicals Division, General Aniline and Film Corporation, New York.

S.C. Johnson and Son Inc., Racine, Wis., announce diphenolic acid, a new chemical which can be used in the manufacture of plasticizers, resins, epoxy compounds, paints, coatings, and surface-active agents.

Halby Products Company Inc., Wilmington 99, Del., offers a data sheet (No. 101) describing DL-TDP, an antioxidant and preservative U.S. FDA-approved for edible materials.

Pfaudler Permutit Inc. announces that the Pfaudler Division, 365 East avenue, Rochester 4, N.Y., will market the Krupp-Dolberg line of centrifuges.

Standard Oil Company of California announces the consolidation of its world-wide industrial and agricultural chemical activities under the new name of California Chemical Company. Included are the California Spray-Chemical Corporation, Oronite Chemical Company, and all of Standard's foreign chemical affiliations and marketing offices. Calspray and Oronite are now Ortho and Oronite divisions of the company.
